National WRA Director Dillon S. Myer, in addressing an interfaith meeting in Los Angeles Monday, stated that there are well over 10,000 Japanese Americans in the United States Army, many serving in Italy, China and the South Pacific islands. Among Myer continued, who are by far more them are heroes,

American than the people who shipped oil and sorap iron to Japan before Pearl Harbor,

The Pacific Coast Comples and Fair Play sponsored the meeting.

Miver claimed that persons who were unaware of the nisei problems a year ago have begun to express themselves on the subject and the temper of public opinion on the matter "has been changing rapidly and unmistakably" during the last several months.

The Director related an incident where a nisei serviceman in Italy wrote to the Secretary of the Interior after reading some of the worst examples of discrimination against the Japanese Americans. This soldier suggested that those responsible for such discrimination be "sent over to relieve the 100th Infantry Battalion."

141 'lleaves' Last Month

During the month of September, 141 indefinite leaves were granted by the local relocation office, according to Mario Vecchio, relocation advisor. This number was a decrease of 18 compared to August.

A total of 118 seasonal leaves and 33 trial indefinites were issued last month.

MEED WORKERS TO KEEP CAMBERY OPER

A total of 1,872 gallons of tomatoes have been canned so far by the project cannery under R. Hamaguchi's supervision with timely help from the block residents, according to Roy Nakatani of the farm office.

Under the present labor situation, it will be impossible to meet the required demand of 11,000 gallons needed for winter mess consumption. Unless this labor shortage is eased by additional workers from each block, stated Nakatani, the canning of tomatoes and other seasonal vegetables for evacuee use may be curtailed.

Farm division is appealing for more workers, male and female, needed immediately to keep the farm harvest going at regular speed, other evacuees.

OCHIKUBO CASE mittee on American Princi-MOT PRICEDENT

The outcome of Dr. George Ochikubo's injunction case filed in the Federal Court in Los Angeles against the Western Defense Command under Maje. Gene Charles. Bonesteel should not be taken as determining nisei rights in general. That is the information released by WRA's Washington office.

The Army has revoked applicability as far as Dr. Ochikubo is concerned and has issued him an individual exclusion order. Therefore, decision in his case will pertain to him alone, and will have no bearing on the question of return to West Coast of

If you value your life, keep calm in case of a fire. Preparedness prevents excitement, so plan now for any emergency case. Absorb these thoughts so you can save yourself or others the moment fire strikes--when every second counts:

1. When clothing becomes ignited, drop to the floor and roll into a rug or blanket to smother the fire. Keep the rug or blanket tight about the neck to protect the face and hair from flames, and the lungs from inhaling deadly fumes.

2. When fire alarm sounds in a public building, walk, never run, to the nearest exit. Running starts a panic. In any building, upon discovery of a fire, first call the fire department, then warn other occu-

3. If you awaken at night and smell smoke, don't open the door and let in super-heated air and fumes. Place your hand on the door, and, if it isn't hot, place your foot against it and open it a little, first, averting your face. If there is pressure from fire outside, you can then slam the door shut and seek another means of exit. Plan now what other exits might be available in case of a fire.

OUR CC-OP

HORT TIME rgo in September the Co-or business committee wisely planned two moves -- both long overdue. They follow: Reduction of margin and distribution of refunds, indicated for this month.

. The fact that Co-on can arrive at such a decision is proof enough that the establishement is in a healthy condition financially. I have reason to believe that it has been for a long time. Just why has not seen fit to make those moves long before this, and thus save itself a lot of criticism, is a mystery. But that is just so much water under the bridge.

There has been a feeling among the residents that the Co-on prices were little "too high." And comparisons have been pointed out by them on numerous occasions to prove this point. Whether such comparisons were fair and justified I'm not in a position to say, but there is certain basis that seem to bear them out.

Co-op members and customers, majority of them, are not interested in the amount of refund given out, but would much rather enjoy the "refund" in lower All I E prices. In other words, save while you buy.

NCI, as to the distribution of rofunds -- that should not be on yearly basis, it should be at least semi-annually. First of all, the Co-op is not a permanent organization, its life is duration at the very outside. This "city" is like a fly-speck on a man, it can be rubbed of f -just like that. And with relocation progressing stendily the policy of the Co-op should be patterned

accordingly.

ind another thing, when there's a "sale," let's have. a sale that is sale. None of that "at cost" stuff. You can't get rid 'of dead stock that way. The success of any enterprise cannot be measured by the dol-

CATERSHIP CRUATITY

In reference to the Second War Powers. Act passed by the congress, which provides that the usual forms and residence requirements be waived in granting citizenship to aliens serving in the US armod forces, the [ASHIMATON POST in its Sopt. 29, 1944 editorial stated in part:

When a min bears arms for a country he is Pasonably entitled to hink of that country as his won. He gives, by virtue of his service in its armed forces, about as satisfactory a demonstration as nossible of his devotion to the Nation's security and welfare and, therefore, of his qualifications for citizenship. This seems a botter test, indeed, then any which are, or can be, applied to civilians seeking naturalization.

There is a truth spoken · clearly and with understandable conviction. It should be read and pondered by lot of us who hold the rights of citizenship lightly -too lightly. And those who still believe that Americanism and loyalty and right to citizenship should be measured by who we are, and not what we are.

Today out from under the clouded Italian skies come tale after tale of heroic deeds of the Japanese Americans fighting their hearts out for American democracy. ... And yet at home, among those who remain to reap the greatest good out of their bloody offorts, there still are some who are the first to rise and point their accusing fingors at nisei in their midst. Perhaps such is permissable in an ultra-democratic country, whore a man's opinion may be aired fracly. Lut when a soldier gives his life and blood to his country's cause, he is deserving of consideration a little above the ordinary--- for him and his people.

AMACHE YOUTH, WAR PRISONER, IS DRAY

by Henry Kusaba

Obviously many have not heard of Japanese Americans being sworn into the US Army to serve their mother country. They are equally uninformed of the glorious deeds of the Camp Shelby, Miss., trained nise; Combat Team in the invasion of Italy that helped to drive the. Germans back up in the hills.

any have sacrificed their lives, many were seriously 'wourded and some taken prisoners of war--all in the defense of their country's democratic principles. These nisei have kept faith with America and have demonstrated their loyalty, many by patriotically volunteering for, tions of president, vicethis grim business of war.

Private First Class Yoshio Matsuoka was one of them -- subsequently taken prisoner of war by the Germans.

His parents, brothers and sisters are residing in

Amache, 7H-7AB: ever hopeful of Yoshio's safe return. Harry Matsuoka, his father, like many other issei, came to America during the migration years -- in 1910. He and his wife lived a life of unceasing toil and struggle, hoping to give their children all the advantages that were denied them. All the years up to evacuation, the Matsuokas had resided in Walnut Grove, Calif., which was really home to them. Here the children were reared to be good Americans. They were educated under circumstances unlike any other community in that State, but nonetheless they grew to become what their parents had desired -- first class citizens.

Then came the ugly fate of evacuation that uprooted them and thousands of others like them from their familiar surroundings, and placed them in this center.

Yoshio, whose faith in America undaunted, volunteered for service May, 1943, and after months of training at Camp Shelby, went overseas this spring with the famed 442nd Infantry. On July 19 he was reported missing in action in Italy, and later the War Department announced that he was a prisoner of war. And then through the Red Cross, his sister, Rosie, received a letter from Yoshio in a prisoner of war camp in Germany, which stated that he was fine and not to worry about him:

So all is well again in the Matsuoka household.

Text of Yoshio's letter to his sister, Posic: Datum: July 20, 1944

Dear Rosie,

Am fine, prisoner of Germany. Not much to do in camp. So don't worry about me. Please write to me, and tell my friends to write too. Am waiting for it. Send candies and carton of Camels. How you and my family understand about me now.

> Good-bye now. Love, Yosh

WORDS RELIEVE LONG ANXIETY

As an added relief to their anxiety, numerous cards and letters were received by the Matsuokas from various persons who heard the short-wave broadcast from Berlin in which a message from Pfc. Yoshio Matsuoka was read by the announcer. The message : "Father, am prisoner. O.K. Send candy, cigarettes, towels, socks underwear. See Red Cross about railing them. Love, Yoshio." His

one such card came from Mrs. Walter White, 50 Bayley road, "assena, NY., to which she added, "Hope this card Brings encouragement."
