

Bulletin

Vol. 4, No. 2

Granada, Colorado

October 17, 1942

NEWSPAPER NAME CONTEST ENDS MIDNIGHT MONDAY

You'd better hurry if you want to enter the "Name Our Newspaper" contest. It ends midnight, Monday, so you only have two more days to enter.

We have over 75 entries right now and think that we'll have double the amount by closing time.

Don't forget that the winner gets a year's subscription to the Reader's Digest, a darn good magazine, plus five copies of every edition of our bulletin and the newspapers which will succeed it.

MAIL ORDER BRANCH OPENS IN BACK OF PRESS OFFICE

A mail order office was opened by the Montgomery Ward Company of Denver this week behind the newspaper office at the 8F recreation hall. R. Darden and Beth Plunkett, company representatives were present at the opening to instruct a staff of Japanese girls.

The office will operate under the Community Enterprise system and a share of the profits will revert to the project, the representatives stated.

Time and expense will be saved by bulk shipment and only cash orders will be accepted. One catalogue has been distributed to every barrack and no more will be issued from the Denver office.

MEDICAL CASE REGULATIONS

Regulations concerning medical treatment for residents of the Project were released this week by Dr. G. A. Duffy of the hospital.

The text of Dr. Duffy's statement:

"1. Only emergency cases are seen after clinic hours, Saturday afternoon and Sundays. These do not include cases of minor nature and cases which may be safely seen the following day.

"2. Requests for home visits should be made before noon, and should be made by a member of immediate family.

"3. A doctor making a special home call should not be asked to see another case in the vicinity. All deserving calls must be reported to the clinic first. It is only fair for all concerned to wait for their turn.

"4. Very careful consideration should be given in each case before requests for home visits are made in order to facilitate this service and to help out the already overburdened doctor on duty."

He also announced the following hours:

Venereal, Mondays, 9:30-11:30 a.m.; well-baby, Wednesdays, 9:30-11:30 a.m.; pre-natal, Fridays, 9:30-11:30 a.m.

Other special clinics will be held as more facilities and working space are available.

TOMORROW'S CHURCH SERVICES

Event	Time	Rec. Hall
PROTESTANT		
Sunday School	9:00 a.m.	8H
Jap. Service	10:15 a.m.	7H

Sunday School	9:00 a.m.	11G-7G
YP Service	10:00 a.m.	11G-7G
SS Teachers Mtg.	11:00 a.m.	11G-7G
Adult Service	2:00 p.m.	7G-11G

YURIKO UYEDA AND JOE FURUSHO WED IN LAMAR

Yuriko Uyeda, 21, became the bride of Joe Furusho, 26, at a simple but solemn church ceremony at the Methodist Church, Wednesday.

The bride wore a navy blue suit with a corsage of white carnations. She was attended by May Furusho and Hatsue Satow while Dave Sugimoto and Stanley Adams were best man and usher respectively. Rev. Upton officiated at the altar.

The second honeymoon cottage to be opened here is at 6E-8F.

GRASS TO BE PLANTED FOR SOIL CONSERVATION

Rye grass will be planted in all open areas to hold down the soil until next spring, the Administration announced Thursday. Operations will begin in a few days.

Residents are asked to stay off the planted areas and to stay on marked paths. Markers will be placed by block managers.

PLAN JAPANESE SECTION

A Japanese supplement to this bulletin will be added as regular feature as soon as equipment is available.

Short TAKES

Frances Senaga, 24, left the Project for Minneapolis yesterday to join her fiancé, PFC Sam Umade at Ft. Savage, Minn. Miss Senaga came to Granada from Santa Anita.

Additional beet field workers are being sought, said J. S. Withers of the Great Western Sugar Company, at the block council meeting recently.

Tadao Toyoshima, formerly of Merced assembly center, and Alice Sakai were united in matrimony at the Cody, Wyo., WRA center Oct. 8.

Chess, checkers, cards and other table games will soon be installed in open recreation halls soon, said Charles Kamayatsu, community recreation supervisor, today.

Two diamond rings valued at \$400 were lost Tuesday afternoon by Mrs. R. K. Satow, 12H-2C. Mrs. Satow believes she lost the rings somewhere between her apartment and the 12H mess hall.

A survey of crippled children who may require hospitalization is being taken by block managers for Dr. G. A. Duffy of the Project hospital.

Approximately 80 entries have been received for the Center's first sumo tournament which opens tomorrow, 1 p.m., at the 6G playground.

Judo practice will be held from 2 to 4 p.m. and 7 to 8:30 p.m. daily, except Sunday, beginning next week. All interested men and boys are invited to join the classes which are held at the 8E recreation hall. Fifteen boys have signed up so far.

SECOND RUNAWAY ATTEMPT FAILS

Lonesome and homesick for California climate and perhaps a foaming ice cream soda, a 16-year-old evacuee decided to thumb his way back to the coast recently.

He was picked up by Patrolman Carl Dowell at Caddoa and returned

to the Center.

This was his second symptom of "itchy-feet" according to an official here. His first attempt at Merced also was a failure.

The youth has been given a job and rehabilitated to Center life.

SCHOOL LIBRARIES TO BE OPEN TO PUBLIC SOON

School libraries will be available to the public in the near future, school heads said today.

The location of the libraries: elementary, 8H-10F; junior high, 8H-1F; senior high, 8H-5A.

TWO DIE FROM HEART ALIMENTS ON OCT. 2

Mrs. Kiyo Yoshioka, 65, of 11F-12F, died Oct. 2. She was attended by Dr. G. A. Duffy and Dr. George Takeyama who revealed that coronary thrombosis was the cause of the death.

Death paid its second visit to Granada on Oct. 2 with the passing of Taneshiro Fukusawa, 61.

He was found outside of his mess hall, death caused by heart failure. He is survived by his wife and three sons.

POST OFFICE NAMED BY LAMAR'S MAYOR CHRISTY

The name of the Center's post office was suggested by Mayor L. Christy of Lamar, an authority on local history, the Reports office revealed today.

Amache was the daughter of chief of the Cheyenne Indian tribe located in this area. She married John Powers, early pioneer cattleman, after whom the county of Powers was named.

POPULATION OF CENTER DROPS

The population of the Granada relocation project hit a peak of 6997 on Sept. 30, according to figures released today by the Reports office.

Approximately 4000 residents were relocated from the Merced assembly center and an additional 3000 came from Santa Anita.

Over 1000 have left the Project to harvest sugar beets and potatoes, the Reports office revealed.

WRA CONSIDERS REQUESTS TO ENTER LOCAL CENTER

With relatively few exceptions, persons now residing in relocation centers are of Japanese ancestry and members of their families who have been evacuated from military areas designated by executive order.

There have been, however, a number of requests from other persons for permission to reside in the relocation centers, according to WRA instructions received here.

It is the policy of the WRA to consider favorably such requests when made by (1) a person of Japanese ancestry, or (2) a person not of Japanese ancestry related to a person of Japanese ancestry in a relocation project within which he wishes to reside.

Application form WRA-100 may be obtained for persons directly concerned at the Project Administration building.

YAEKO MORISHIGE WEDS EDWARD M. TOKUNAGA

Yaeko Morishige, 26, and Edward M. Tokunaga, 28, both of Woodland, were first to wed here.

The ceremonies were held at the Presbyterian church in Lamar on Sept. 18. The Rev. C. Westfall officiated.

SCHOOL SYSTEM TO BE IN HIGH GEAR SOON

Forty Caucasian teachers and three Caucasian principals are employed in Project schools, it was revealed by Paul J. Terry, superintendent of education, today.

With more equipment and material arriving daily, the regular school-day schedule should be operating within a week, he added. A number of books and desks have already arrived.

"New obstacles are confronting us daily, but we will solve and organize everything eventually," Terry continued.

Meanwhile hopes for new buildings are fading because of priority ratings, lack of equipment and few skilled carpenters, the superintendent concluded, at present.

CENTERS CALLED MILITARY AREAS

Granada relocation center and all other centers in the Rocky Mountain states where Japanese evacuees from the west coast will be interned for the duration have been designated as military areas.

The designation, announced recently by Secretary of State Henry L. Stimson, means that military police will guard each camp. No Japanese in the camps will be permitted to leave without written permission from proper authorities.

Articles considered contraband in the coastal zones will also automatically fall into that category in the areas, it was learned.

FIRST BABY CHRISTENED CAROL MASAKO TANAKA

Carol Masako Tanaka was the name given to the Granada relocation project's first baby. She was born to Mr. and Mrs. Takashi Tanaka on Sept. 22. Carol's mother is the former Lilly Miyashima.

NIGHT SCHOOL TO OPEN LATER, TERRY INDICATES

Night classes will not begin until regular day schools are organized into smooth-functioning machines, Paul J. Terry, superintendent of education, indicated today.

The majority of the adults desire Caucasian teachers for night classes and full consideration on this issue is being given he added.

BROADCAST GRID SCORES

Today's football scores will be broadcast this evening at 5:30 over KOA, 850 kc, and at 8:30 over KJZ, 560 kc.

LIL NEEBO HERE!

Lil Neebo and his creator, Chris Ishii, have obtained their work orders with our newspaper.

As soon as equipment is available, Neebo will make his appearance to continue to amuse and gripe our readers.

According to usually reliable sources the little evacuee from Santa Anita will discard his jockey silks for a complete wardrobe of government-issued haberdashery.
