HANSON REPRIES TO CHARGES OF EMPLOYMENT DEPT. IN EFFICIENCY

Charges of "inefficiency" and "bottleneck" leveled at the Employment department were answered by Willis J. Hanson, registrar, at a meeting of block representatives Monday at the 7H recreation hall.

Hanson said that the confusion in the Employment office is due primarily to "a bad start" and to "pirating of workers" by various departments. "Conditions are much improved now, however," he added.

"People should not go to work

"People should not go to work on any Center project without a proper authorization from my office," the registrar warned. Eventually a mechanical filing system

pervisors and foremen.

A discussion of the labor shortage on the local farm project and in hauling of coal was terminated with a statement from Hanson that the problem was not his, and that it should be solved by the residents.

Also under fire at the meeting was the medical department. A member of the council asserted that immediate medical attention was denied a woman who collapsed in the washroom because her first name was not known when the case was reported at the hospital.

the general election.

"When he sends you the ballot, you must appear before a notary public, mark your ballot, sign and swear to the identification affidavit on the envelope accompanying the ballot, then return the ballot to your county clerk where it must be received on or before Nov. 9.
