## NEW MEDICAL HIEF NAMED

phen has been assigned to this center as chief medical officer, according to instructions received from WRA Director Dillon & Myer in Washington, and released by Project Director James G. Lindley yesterday.

Dr. Carstarphen is placing Dr. Gerald Duffy, who is on sick leave.

The assignment of Dr. Carstarphen has been made in order that the health program of the WRA may not be jeopardized, said the instructions. :

## PROFESSIONAL

The opportunity for Army enlistment will continue until 4:30 p.m. tomorrow, Project Director James G. Lindley announced today.

A .telegram received by Capt. .. illiam S. Fairchild of the Army team has authorized qualified doctors and dentists, and ordsined ministers to answer Question 27 as follows; "Yes, if I am commissioned." Lindley stated. Captain Fairchild will remain in the center through Friday to accept such enlistments, and will also accept other enlistments during this period.

The telegram states that Every effort will be made to obtain commissions for them (doctors, dentists, and dinisters) although the medical. personnel of the combat .team will be limited for that reason not all of them may be taken initial-1y."

## Double Bill Is Scheduled

"State Fair," co-starring Will Rogers and Janet Gaynor, and "Taming the Jungle," together short subjects, will be shown at the 12K and 11H mess halls tonight, returning the movies to the original one-week schedule.

#### CLOTHING CHECKS (B(I) I WELVE BLOCKS

Complaints and requests for dianges in October, November . and December clothing allowance checks taken as soon as will be all checks are mailed out, said John O. Hoore, public welfare counsplor, today.

Checks for 13 blocks have been mailed out to date, he said, and estimated that the task will be completed by the middle of next week.

New regulations exclude payments to many of the residents who received

checks for the three-month period beginning in July.

Under the WRA ruling which has been in effect since October, the head of a family must have worked at least 15 days of a month on' a WRA project if the members of his family are to receive onecks for that month ...

Deductions for government clothing, purchased from the warehouse in December, have been made from the current checks, Moore explained.

#### Many Thanks

We appreciate the patience of the military team members sent to us by the War department: Capt. William S. Fairchild, Staff Sgt. Robert I. Bischoff, Sgts. George T. Davis, and Fred H. Odanaka. They had to travel a long way psychologically to meet us. They went out of their way to give everybody a fair chance.

We appreciate again the deep understanding of the center administration. Especially to Project Director James G Lindley, Education Superintendent Paul J Terry, and Walter J Knodel, administrative member of the Army team, go our vote of thanks for frankly stating their observations of nisei registration in the US Army-more proof that the government represented by the WRA is our best friend.

We are grateful that the community council recognized the center situation and mobilized to correct misunderstandings.

Enlistees must be congratulated for accepting their responsibility personally and for doing something about it. They rightfully "belong" and all of us are obligated to them for whatever vicarious benefits come because of their action.

Our enlistees met the challenge as one of our best friends maintained that we would: that ultimate salvation is in our own hands; that our status in American life now and after the war depends on how we conduct ourselves now; that cheerful patriotic service will count in our favor; that times and circumstances are testing us; and, if we come through with a fine record, we will be better off than we were before.

Without parents, sisters, and friends sharing and accepting responsibilities too, by supporting the enlistment program, we would have failed to show the rest of America that evacuation was unnecessary. America cannot question the loyalty of our volunteers. --E. K.

Letters TO THE EDITOR

TO THE EDITOR:

Loyalty is a frequently discussed topic, and here is an angle which should prove of interest and importance to every draft-age hisei...

Serving in the front lines is not the only way in which any citizen can express loyalty. Serving on the home front is no less loyal than serving on the fighting front. The nisei compose only a handful of the total draft-age population of the United States, but they can do much by serving willingly on the home front...

The nisei can prove that the Japanese race here in America is not a menace or a problem but substantial contributors to American society, and should be granted the God-given right and liberties that right-fully belong to every citizen...

T. F.

TO THE EDITOR:

Why couldn't the recreation department give the boys who are volunteering for the Army a big farewell dance, preferably March 5, 6 or 7?

Another thing--why have admission charges at every function that they give? There does all the money go? How about a report sometime?

Please inform the recreation department to get into action and really give the boys a grand break.

A LOT OF PEOPLE

## TOWN HALL

Some interesting facts and frigures have come to light as a result of a survey of evacuee farm labor conditions of last fall by the documentation section.

Approximately 1,070 evacuees left the Granada center to aid the farmers in harvesting their crops. Another 300 commuted from the center but these workers were not contacted in compiling the report.

The bulk of the workers were employed from late September to the first week of December. They were out of the center on an average of 55 days. The working period during their stay averaged 32 days or about 58 per cent of the time.

The workers were sheltered in wooden frame houses, train coaches, brick or cement buildings, shacks, barns, auto courts, and tents. In many instances, the quarters were unsanitary, uncomfortable, and overcrowded.

Thirty-one per cent of the farms had no lavatories, not even outhouses, and workers had to construct their own or use "nature's facilities."

Washtubs, irrigation ditches, and showers were the bathing facilities for 17 per cent while 63 per cent had none.

Only 29 per cent were provided with means of washing their clothing although irrigation ditches are included in this number.

Eighty-baven per cent cooked for themselves. Because cooking facilities were far from complete, pots, pans, dishes, and silverware had to be purchased by a large percentage of the evacuees.

The average gross earning of the workers was \$100 or about \$3 a day when they were working. Net earnings were much less.

The surveywas conducted in order to present a true picture of the conditions that existed because of the evacuees' dissatisfaction toward the ferm labor conditions of the past season. --Khan Komai

#### DONALD HARBISON CN SICK LEAVE

Donald I. Harbison, assistant project director. is still ill at his home in Fort Collins, reveals Dorothy McDougall, clerk-stenographer, who returned this week after a visit to her home in Fort Collins.

Much has been said of "unit acreages" and many, no douct, would like a clarification of the term.

At the present time the agricultural division is developing a program for vegetable crop production. This program involves operational units that are known as "unit acreages." By "unit acreage" is meant that the farming land will be divided into units, each comprised of from 40 to 50 acres depending upon the intensity of the crops to be grown. These units will be devoted entirely to vegetables and feed crops. All details of planting and harvesting will be taken care of by a supervisor who works closely with his group of agricultural workers.

Insofar as possible, the kind of vegetable produced on these units will be determined by the supervisor, with staff personnel aiding whenever and wherever suggestions are necessary. During the coming weeks, meetings will be held to discuss spring planting on the units.

Every day of the week has been utilized by the agricultural workers, and much of the ground is now ready for spring planting. Notbeds and cold-frames have been made ready for transplanting from seedbeds.

Some units are in the process of preparation for grop production. Ena Nakamura supplemented his duties as hog project foreman with approximately 100 acres which he proposes to plant with feed crops for hogs.

Yoshio Asai has prepared approximately 50 acros for vegetable crops which he will supervise. The voca-Chisero Furuta, Sontaro tional agriculture department, under Jim Burgert's and Tani Inui, Yuriko Yo- supervision, has taken 500 acres to farm. Jitsumi Abe, shil; from Poston; Kuraki former dairy foreman, is planning on taking a 50-acre

> Those,interested in farming on this "unit acreage" plan are requested to contact the staff of the agrioultural division.

by Joseph Ide the Granada casaba tournament is past history but the showing made by the local teams is still the big talk among the best sports circles ... the Royal Araians survived the gruelling tournament schedule plucked the 1st prize of \$25, plus a trophy and gold basketballs...the Ramblers roped in the 2nd award of \$15, and it was only hard luck that prevented the Kau Kau Laners from making it a clean sweep for the center cagers.

we can understand now why the Pirates were the kingpins of this section ... their opposition rates with our A leaguers ...

the Granada gym was jamied to the rafters for the final games ... the sponsors beamed happily as their purses jingle-janglejingled as it had never done before ... oùr guess is that the two-day take was bigger than it has been for the past four years combined...

the officiating? . . the less said about that the better ...

disappointing was the showing of dead-eye Tosh Shimizu of the Ramblers. who wasn't quite so deadof-eye ... the Laners needed Yuk Yawata to steady them when they were under pressure...the two-day grind was too much for the Skookums, who faced three tough teams in a row, and fell in the seni-finals with two defeats...the Araians without Shig Fukuyama wovld have been as sad as the tournament without the center fans ... SKOOKUMS BATTLE HOOPS; LANERS MEET ROCKETS

Rounding the final turn in the AA basketball league. the Skookums and the Kau Kau Laners will face two easy opponents on the Granada hardwood tonight.

these teams are tied for the league lead. Both of along with the Royal Araians, and tonight's wins will be all-important. The Araians have yet to meet the Romblars.

The first contest at 7 p.m. will pit the weak Lindy against the formidloo:os' able Skookums. This onesided match should be a runaway for the Skooks, unless they decide to use their reserves most of the game. Mark Hashimoto and Jim Shizuru will be the men to watch if this should be the case.

The Hoops, who have lost four games in as many starts, will rely as usual. on the point-making abilit; of Benny Yamagiwa and Aki Yamazumi. Diminutive George Yamazumi can also e dangerous.

Pre-game done reveals that the Kau Kau Laners are expected to make easy prey of the Livingston Rockets, despite the ab-sence of their key-man, guard Yuk Yawata. Kanzo Kanzo Arimoto will probably start in Yuk's spot and pair off with either 'Aki "Watanabe or Tosh liatsuoka.

Though they are defin-itely the underdog five, the Livingston Rockets are not beyong pulling an upset, especially if Fred Kishi and Nob Kuwatani can find the bucket.

Tickets for the games, are available .t the 7E recreation office.

Kau Kau's, while the and Ramblers will really have nothing to gain or lose ... we like the Ramblers just for this reason ...

after a week's layoff, the A league will move into their final games Sunday. ...important will be the set-to between the Argians and the Laners, who will fight it out for the Division I crown ... important too will be the clash between the Esquires and the Sepol Ramblers, and the · beef between the Seplars and the 10H Bucs...

we're wondering now who play the prelim to the Araian-Rambler A. tilt Monday night? It would be a good spot for two A outfits.
