

# YESTERDAY ON COLORADO HIGH PIONEER

Vol. I, No. 74 • THE WRA NEWSLETTER • November 18, 1942 • Amache, Colorado

## POLICE TO BE TRAINED

A comprehensive program for the training of interior police guards is planned by H. C. Tomlinson, the Granada center's new police chief.

Tomlinson, former Wichita, Kan., police captain, has taken complete charge of the police department, and will be aided by Stanley Adams who will continue to serve as assistant chief.

Local laws, powers of arrest, criminal investigation, police jujitsu, and safety education are among the fields to be covered by the training program.

## Check Survey Being Made

A preliminary survey is now being made to determine the checks for the July, August, and September clothing allowance, according to Willis F. Hanson, administrative officer. Announcements will be made in a few weeks as to the amount, and the recipients, he stated.

## FARM PROJECT STOPPED

Unless clarification is given as to whether outside farms or the center farm should receive primary attention, it will be impossible to continue with the development of the project land, for which \$100,000 was budgeted. Such was the conclusion reached by members of the agricultural committee of the general assembly who met last week with Warren R. Benison, chief of agriculture and industry, to discuss future plans of the WRA in regard to the farm project.

## COAL HAULING PROBLEM AGAIN FACES ASSEMBLY

### CENTER DIRECTOR IN CALL FOR

#### FORTY-EIGHT EVACUEE WORKERS

Hauling of coal into the Granada center again becomes a major problem as Director James Lindley asked the general assembly for 48 evacuee laborers, Monday.

Lindley hinted that stern measures may be in order if immediate response is not forthcoming.

## ILLNESS HITS BLOCK 6H

Food poisoning was believed to be the cause of the sickness of almost the entire populace of the 6H block, it was revealed by the mess division yesterday. An investigation is under way to determine the exact cause.

## YW Rally Again

A get-together for girls and women 18 years and over will be held in Terry hall, Wednesday, Nov. 25, it was announced by the YWCA yesterday.

## GI Dance Set

"GI" will be the theme of the dance to be held Saturday night at Terry hall from 7:30 to 10:30 p.m.; it was announced by the recreation department, Monday.

Dancers are asked to wear their GI clothing. Ernie Yoshida will act as master of ceremonies. An admission price of 10 cents per couple will be charged.

Because 150 volunteer beet tappers were told they were not needed as they stood waiting for transportation last week, the assembly felt that an appeal for coal haulers would go unheeded.

To cope with the situation, members of an assembly committee have been conferring with Donald E. Hartman, assistant project director, and Walter J. Knodel, placement officer, during the past two days.

## Army Engineers Leave Project

The WRAMC is officially in charge of the maintenance and repairs of this project since the leave-taking of the US Army engineers last Saturday at midnight, according to James G. Lindley, center director.

Construction of essential facilities at the center which began last June 29 is virtually all complete, he stated. Finishing touches are being added to comply with the original contracts.

## THREE ADDED TO FACULTY

Three Caucasian teachers were added to the project school faculty, the school offices stated today.

Muriel Beck from Cook, Nebraska, will serve as assistant to Principal S. Clay Coy of the senior high school, and will also supervise the mathematics and science classes.

The other addition to the senior division is Josephine Koresaki from Hayden, Colorado, who will be the physical education instructor for girls.

Arlene Hicks from Iowa joined the elementary section last Friday. At present she is the second grade instructor.

## WARM CLOTHING NEEDS LISTED BY SCHOOL

Plenty of wool clothing should be worn this winter, whether, or not the sun is in the sky, cautions the health and physical edu-

cation department. Colorado's sun shines brightly even when the mercury registers 40 degrees.

Winter wardrobe hints include scarfs, earmuffs, windbreakers, slacks, warm sweaters, mittens, boots, galoshes, and hats. To prevent their catching cold, children should be reminded to remove their jackets or overcoats upon entering a room.

The second contest of the afternoon brings together the 9E Raiders and the Modesto Midgets. The Raiders with their speedy backfield combination of Furuno, Uyesugi, Hamahashi, and Hinoki are favored over the Midgets who lost their opener to the strong .7F Skibos.

The Raiders won a 7-7 forfeit victory over the Livingston Wolverines.

The newly-formed National nine-man touch football league officially made its debut Saturday at the 9G gridiron when the .7F Skibos took the Modesto Midgets into camp by a score of 6-0, in the first game of the afternoon's double-header.

The pass combination of back Saburo Kawamura to end Tom Tokunaga was enough to clinch the game for the Skibos.

The second contest of the afternoon found the speedy 9E Raiders pitted against the tall Livingston Wolverines. This game ended in a 7-7 deadlock, but was forfeited to the Raiders as Livingston used three ineligible players.

The 9E Raiders' score came as a result of southpaw Jun Furuno's 20-yard pitch to end Ralph Maeda. Conversion was good.

In the waning moments of the game, a desperate Wolverine pass from Marvin Enomoto to Charlie Tanaka clicked for 6 points, making the score 7-6. The pass conversion was good, tying the count 7-7.

## PASSES WIN FOR MODESTO

The brilliant passing arm of halfback Soopy Miyashima was responsible for three touchdowns scored by the Modesto Skokums as they downed the Amache Roughriders, 18-6, in the second contest of the American league at the 9G gridiron Sunday.

The Skokums took advantage of the loosely-knit Roughriders' defense and scored a few minutes after the opening whistle as Soopy shot a 30-yard pass to end Hashi Togashi, who took it standing in the end zone. The second quarter found Modesto again on the offensive and this time Miyashima fired a perfect pass to back Ickie Iwanaga for another score.

Sneaking behind the defensive halfback, end Jim Shizuru accounted for the third and final Skokum tally as Soopy again rifled a touchdown pass.

The Roughriders' only score of the game came in the fourth quarter when back Mas Uyesugi cracked a six point pass to end Jack Hamahashi in the end zone. All conversion attempts failed.

## IOKA JOLTS NEWSMEN, 6-0

The heavier, more experienced and highly favored Kau Kau Lane Zeros scored but once to defeat the scrappy Pioneer Newshawks, 6-0, in the first nine-man touch football game of the newly-formed American league at the 9G grid field Sunday.

With the ball on the Newshawks' 17 yard line, the Zeros pulled the old "sleeper play", catching the newsmen flatfooted. Back Harry Ioka committed the sabotage and was on the receiving end of a pass from Art Furuno. The attempted conversion failed. Thus the halftime score stood 6-0 in favor of the Zeros.

Art Furuno was a standout in the Zero backfield with his tremendous punting.

# PROMPTNESS REQUESTED

"We cannot emphasize too strongly the importance of making prompt returns of all milk bottles since it affects future shipments of our pasteurized milk," said Dr. G. A. Duffy, chief medical officer, this week.

The dairy company supplying this milk is unable to ship the requisitioned amount to this project due to the fact that a sufficient number of bottles were not returned. ## WE DON'T LIKE HIM

One of the most annoying persons in the Granada center is the person who orders the magazines which are on sale at the store. He's either illiterate or insulting.

Pulp magazines and comic books take up most of the space on the racks. The rest of the display is made up of astrology, sex, and humor magazines, and the usual stand-bys—Life, Saturday Evening Post, and Collier's.

If the purchaser has ordered these periodicals because they suit his own taste, he is illiterate; if he has ordered them because he thinks we enjoy them, he is insulting our intelligence.

## A CLOSE CALL

An American Japanese soldier who formerly lived at Sacramento escaped unharmed yesterday when a man whose two sons also are in the army took a pot-shot at him in a cafe at Dermott, Ark., and as a result landed in jail.

Associated Press reported that the soldier is Pvt. Louis Furushiro, 22, a member of the eighth ordnance service company at Camp Robinson, Ark., who had stopped at the cafe to eat while on his way to a nearby Japanese relocation colony of Jerome to visit friends.

City Marshall Thad Hawkins arrested the civilian, whose name was not given, and was holding him without formal charge pending further investigation.

"Somebody told this fellow there was a Japanese in the cafe," Hawkins said. "He went home, got his shotgun, came back to the cafe and opened the door. He asked the soldier if he was Japanese. The soldier said 'Yes' and this guy fired."

"The soldier jumped off the stool and the load of squirrel shot missed, scattering through a lattice work in the rear of the cafe and damaging nothing except a domino table."

The city marshal said it was the first such disturbance since establishment of the Japanese colony, housing 10,000 evacuees.

## TWO NOTICES

The PIONEER wishes to contact evacuees who have at one time or another farmed on the present site of the Granada relocation center.

The purpose of this request is to obtain a feature story covering the Japanese angle in connection with the "Our Second Frontier" series now being carried in the paper.

Every occupied apartment in the center is entitled to one copy of the PIONEER without charge on publication dates. Please contact your block representative when you do not receive a copy.

A limited number of extra copies are available at the PIONEER office, west of the post office.

### TO THE EDITOR:

In an issue of the PIONEER dated Nov. 11, there appeared in the column Letters to the Editor, an article concerning the good will banquet sponsored solely by myself.

This banquet, contrary to the newspaper was an idea resulting from a series of meetings held by the Granada Sumo association and the League of Nisei Pioneers.

The statement in the column that I tried to inveigle center residents into providing food and entertainment for the officials of nearby communities was utterly untrue, therefore, this statement stands corrected.

SUSUI MATSUI

### TO THE EDITOR:

Thank you for your letter of Oct. 29. We compliment you on the copies of your center newspaper which you enclosed. The editorial matter is excellent and the neat justified column arrangement and lettering guide headings invite reading.

There is unusual vitality in the cartoon signed "Chris" in the last issue.

A. B. DICK COMPANY

### TO THE EDITOR:

Why can't something be done about the clothes-line hung from barrack to barrack? It is not only an ugly sight but is dangerous to the public as well.

There has been a case of a boy injuring himself seriously just because he did

not see the clothes-line. True, the people should watch where they are going but it is quite impossible to see the lines at night, especially if one is in another block.

In the interest of the people's behalf, I remain,

MARGARET
