FIVE BLOCKS

TO VACATE

Barracks to be used for the aged and invalids under the care of the hospital, for several administrative and community services offices, co-op, and other purposes are urgently needed, so a movement is being made to vacate a barrack or two in Blocks 6G, 6F, 6H, 6E, and 7K, according to Project Director James G. Lindley.

A proposal was made to vacate Block 6G entirely, but the residents objected, declaring that it is difficult to move on such a short notice, that they had already furnished their apartments, and that the residents had "learned to love the block after work-

POLICY CHANGED ON-COMPENSATION

As of June 1, unemployment compensation will be paid only to those center residents actively assigned to project work who are unable to report because of illness, announced WRA Director Dillon S. Myer.

The change in policy was attributed by Myer to "the increasing outside employment opportunities... and the mounting need for full labor utilization in our national war economy."

Hereafter there will be no waiting period between the expiration of allowable sick leave and commencement of compensation. Upon certification by the employment division, unemployment compensation will be paid from the date the applicant became eligible. There is no change in the rate of compensation—60 per cent of regular wages.

The maximum period for which compensation will be paid is 90 days. Eligibility must be re-established every 30 days during this period through a physicien's certificate.

BARRACKS

ing together as one family."
This plan was dropped, but
Block 6G agreed to vacate
a barrack or two.

Lindley stated emphatically that with shortages of building materials and workers, it is impossible to build the necessary buildings; therefore, barracks will have to be vacated in the various blocks. Blocks near the hospital and administration buildings are preferred for this purpose.

Lindley added that space needed to store the products raised on project farm. And also because of the evacuees leaving the center for outside employment and the limited and reduced budget, the expense of operating this project must be cut. The letter means consolidation of blocks.' This may cessitate the closing of certain moss halls and the use of a common mess hall by two adjacent blocks.

Six Families

Six families in the Granada relocation center whose interned member was in the advance party that went to Crystal City, Tex., are scheduled to leave to-morrow morning for reunion at that internment camp, according to Project Director James G. Lindley.

This group will be joined at Pueblo by families from three other relocation centers who are enroute to the same destination.

No further word regarding the acceptance of additional families at Crystal City has been received from Washington, Lindley stated, although some delay is expected as the housing facilities at Crystal City are also to be used by Japanese from South America who are enroute to Japan, he said.

BOY SCOUTS SET GOAL AT 23,000 HOURS ON FARM

With the goal set for 23,000 hours, 230 Boy Scouts and Scouters are now doing volunteer work on the project ferm. The program is being carried out on a competitive basis, with troop leaders supervising the work of their respective groups.

The Amache program is a part of the nation-wide Boy Scout project to aid in emergency farm work. Those who volunteer form the Victory Farm Volunteers. One hundred hours per Scout is the national goal.

Boys 12 years of age and over are now eligible to work on the farm as emergency farm workers and receive pay, according to Scout Commissioner Ed To-kunega.

NYA YOUTHS RETURN TO WRA CENTERS

Of the 275 youths who applied for the NYA training courses, 215 who had already moved into NYA centers must return to their respective relocation centers at once.

FARM

Some Progress Is Seen

Hundreds of evacuees volunteered their time to work on the ferm during the week end to aid in harvesting the spinach, thinning the lettuce, and weeding the onions.

Jitsumi Abe, supervisor of Unit 2, declared that he would estimate a yield of 400 bushels an acre in the patch they were cutting and, according to John Spencer, the yield from the rest of the 14 acres in spinach will average about 250 bushels an acre.

Eleven acres of his peaswill be ready for picking this week. In all, Abe has 60 acres under cultivation and, except for help in harvesting, all the work has been done by four workers.

Irish potatoes, 77 acres of the finest potatoes in the Arkansas river valley according to Spencer, under the supervision of Trakeshi Mayeda, are budding. Red radishes will be ready for the mess tables soon.

The remarkable progress made by the farm must be attributed to the efforts of the unit supervisors and the farm workers, who numbered only about 120 for the better part of spring, but who have been culivating land that was operated by 330 workers last year and cultivating it more intensely.

In the vest pasture land' of the old XY ranch, 218 heads of cattle graze. Plans have been made to incre'se this number 600, but if help were plentiful the land would be able to feed a far greater number. With a great percentage of the domestic production of beef being sent out of the country under the lend-lease proand huge quentities going to our armed forces. if the cattle is not raised on the farm for center consumption, meat will not be on the tables this winter.

The hog project under

Ena Nakamura has come a long ways from the 24 hogs they started with last September. Working with only six men, they now have 70 acres of corn plented to feed the hogs as well as caring for 943 hogs.

Nakamura started by hiring three boys experienced with hogs, promising them \$19 a month, and when a "C" rating giving them the \$19 was refused, he paid the difference out of his own pocket until the matter was straightened out months later. He was a retired man previous to evacuation, but now he is giving the center and all the residents the benefit of his years of experience by making a success of this project.

The poultry project at the old Koen ranch, under Henry Shimizu, has almost 10,000 birds now, but this is only half of the 20,000 birds that he plans to keep. Included in the flock will be 16,000 laying hens which will produce 2,400,000 eggs a year or an egg a day for each evacuee.

Work is progressing on the increased facilities needed for the larger flock. But facilities for cleaning and picking the birds are needed before the center can be supplied with birds.

Aside from these vegetable and livestock units are the garage and blacksmith shop, also located by the Koen ranch, to repair and rebuild the old equipment inherited from other government agencies.

The blacksmith shop has taken horse equipment and converted them over to tractor equipment. Certain types of cultivators not available on the market have been built by the shop. The sweet-potato planter is also another handiwork of the shop, born of the ingenuity of Yoshio

Short TAKES

Hitting the peak over the week end,200 residents volunteered their help on the project ferm Saturday, and 100 on Sunday, announced the ferm section. On Monday, the volunteers numbered 20 while 30 worked Tuesday. Radishes and pess will be harvested some time this week.

All new applications for service from the public welfare section will be received between 9 and 11 a.m. Mondays through Saturdays. This ruling applies to persons who have never before gone to the welfare section for service, according to Counselor John J. O. Moore.

Jerry Sullivan, assistant fire chief, and his wife left the center Sunday to visit his grandson at his mountain home in Pueblo.

The police department announces that small packages and suitcases will be taken care of by them for persons leaving the center, but that freight must be cared for by the property division.

COMMONWEAL!

Boosts Resettlement Frogram

Implying that the progress made by the Japanese in California during the past 30 years "must have been a thorn in the flesh for the Native Sons of the Golden West, "and championing the present resettlement program, an editorial entitled "Plough Deep While Sluggards Sleep" appeared in a recent issue of the Commonweal, national Catholic weekly published in New York City.

"After Pearl Harbor," editorial, "the said the FBI rounded up a couple of thousand of them (Japanese) ... suspected of a dangerous loyalty to the mother country. The rest kept quietly about their business. But the American Legion and the Native Sons and (not of-ficially, of course) the Associated farmers could not let so happy an opportunity slip through their .fingers.

"A few of them were beaten up. There were threats that more of them would be beaten up. What to do? Let them weather the storm ...? Or appease the people who found the competition too stiff, who would like themselves to make a little money out of tomatoes and lettuce?

Japs Clean, Well-Behaved

Wellsville, Kan., a town of 816 population, is learning to live with Japanose, wrote Helen Jo Crissman, a Kansas Citian, in a recont issue of the Kansas City Times.

Cne hundred and twentynine Japanese, housed in boxcars, are now building new tracks for the Senta Fe railroad, four blocks from the center of the town's 35 business establishments.

"Japanese are on the streets, in the stores, in the pool hall, in the picture show; and eight of them on the minister's in-

'TIMES' FICTURES NISEL SOLDIERS

Pictured in the June 4 issue of the Kansas City Times was a group of 13 nisei soldiers from the Minidoka relocation center, Hunt, Ida., headed by Pvt. Tadashi Fujioka, formerly of Seattle, Wash.

The caption read: "These Japanese will fight for Uncle Sam. They are 13 of the 15 American-born Japanese who stopped here (Kansas City) on their way from their induction center at Ft. Douglas, Utah, to their training station at

The story under the picture described the group leader, Private Fujioka, as a "serious and uncommunicative private who had all the earmarks of a first class fighting man. Fujioka explained the long interval between the time the boys volunteered and their induction by saying, "We had to be checked over by the FBI. All that kind of

MAY ALLOW RETURN TO PACIFIC COAST

. WASHINGTON, May 26 -- Assistant Secretary of War John J. McCloy in a letter released by Rep. Ward Johnson, (R-Calif.), said that the War department may allow a few Japanese Americans married to Caucasians to return to the Pacific Coast zone from which they are at present banned.

He said that such exceptions to the general order would be considered only if the department had no doubt of the loyalty of the individuals concerned.

"A few persons in town openly will be 'glad to let some other town have them, but the large majority is willing to cooperate in the matter. Wellsville is taking 'the Japs' with well-bred equanimity," Miss Crissman stated.
"The main impression,"

continued. the author, "is that the Japanese are clean, well-behaved, and would be friendly, if they were not 'scared to death' of doing the wrong thing "

OPPOSE RELEASE OF JAPANESE

LOS ANGELES, June 3--Vigorous opposition to the action of the WRA in releasing the Japanese evacuees and permitting them to return to the West Coast was voiced in a resolution adopted by delegates to the 24th annual convention of American War Mothers Long Beach.

Mayor Bowron stated that was "actually amazed" at the tone of many of the letters he received after a broadcast in which he expressed hope that some legal way might be found to deprive Japs of their American citizenship. He said that apparently many persons interpreted this to mean that persons of Italian and German extraction might also be so treat-

Thumbiai SKETCHES

When the Fibber McGee and Molly, program first the airlanes in 1938, hit the band that provided the show's musical entertainmert was led by Billy Mills, who still performs the musical chores for the Mc-Gees. A member of that '38 Mills band was one Henry F. Goldammer -- now junior property and supply officer in Amache's mess division.

This trained accounting wizard used to spend every leisure moment playing musical instruments while attending the University of North Dakota and later Minnesota U. He received his BA in commerce from the latter school. After graduation, Goldammer became for the Bank of auditor North Dakota.

However, his earnest love of music led him to become a professional musician after four years of accounting for the state of North Dakota.

Goldammer played saxophone and clarinet for such famed bandleaders as Red Nichols, Gus Arnheim, and Ben Follock in the years that followed. He also plays bassoon.

His musical profession took Goldammer through every one of the 48 states. His longest engagement was a 7-months' stand in New York.

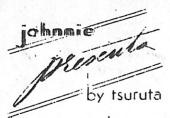

remembers, too, the He time the band for which he was playing traveled from Winnipeg, Canada, to Maco, Tex., in the short space of a day as they were booked for a Texas location a day after finishing the Canada engagement.

Another time, fire destroyed the trailer which was loaded with the band's instruments.

Henry F. Goldammer has played over nation-wide radio hook-ups, in night clubs and hotels in some of the nation's largest cities. He's gone through numerous exciting experiences while doing so.

Now, however, he has returned to the less hectic accounting field.

home stretch

The A leaguers are heading down the home stretch. With the pace-esting Echoes and Knines at the top of the ladder and the Skibos just a half-game behind, the league may end in a tie.

The Echoes are favored to cop the crown with the Kuwatani brothers' heavy batting, and the superb pitching of Geo. Nagai and Tak Kunimoto. They seem unstoppable. However, the Knines lined with experienced players may come through. The Skibos with Speedballer Wayne Horita, and George Takahashi's pitching and batting may surprise everybody when they meet the Knines this evening.

The Echoes will play their last game against the Raiders, who lost to the Skibos, 13-12, last week, and are expected to chalk up their sixth triumph of the season.

Presenting Goro Shizuru, Skibo center fielder, smacked a single in the extra inning contest against the Raiders Saturday and drove in the winning run that gave the Skibos a hard-earned, 13-12,

victory.

Tak Kunimoto, Echo chucker, pitched a 1-hit, 1-run game against the low-ly Condors and kept pace with the Knines who dumped the Granders.

Frank Kino was appointed czar of the baseball board of directors recently. Other members of the board include: Brush Arai, Ping Oda, George Matsuura, and George Kawaoka.

DUSTER-DODGER GAME PROTESTED

To discuss whether or not there will be a rematch of the recent Duster-Dodger championship game, the managers of both teams and the umpires of the contest will meet with the softball board of directors at the 7E rec office tonight from 8 o'clock.

UNDER FIRE

WASHINGTON, June 3--WRA Director Dillon S. Myer was accused by Representa -tive Thomas (R-N.J.), member of the House un-Americanism committee, of flouting public sentiment against release of Japanese American evacuees and of paying too much attention to "bleeding heart Cabinet members" seeking domestic service.

Thomas declared the Dies committee that have turned up evidence of "gross mismanagement, inefficiency and the destruction and abuse of government property" and complained that the WRA is "pampering Japanese whose loyalty is to the emperor of Japan."

Myer protested that the Dies committee agents made only superficial investigations of conditions in relocation camps.

Speaking at the City auditorium in Denver recently, Roane Waring, national commander of the American legion, characterized the WRA as "a bunch of half-baked theorists" who have hed no experience in handling men, let alone Japanese enemies, according to the Rocky Mt. "Some of the Japanese Americans are Legion members and they are taking their enforced confinement as a necessary adjunct to the conduct of the war," said Waring. "Many of them are carrying on Logion teachings within the camps."

DEPORTATION LAW TO BE CONSIDERED

WASHINGTON, June 3--A proposed amendment to United States nationality .laws paving the way for ultimate deportation of Japanese Americans who acknowledge loyalty to Japan will be considered soon by the House Immigration and Nature lization committee, announced Representative Shepphard of Yucaipa.

WASHINGTON, June 4--WRA committee gag Robert E. Director Dillon S. Myer in Stripling, its chief infin- with the war effort and the hampering the relocation

He asked committee members to produce detailed evidence in support of charges that American-born Japanese specially trained in sabotage and espionage are among those released.

ing conditions and factors which make it hard for nisei to relocate, was reported by T. Shime, who recently conducted an investigation.

"I noticed a number of nisei in the downtown business section ... One of the most striking things is the sloppy, careless dress of the young men...dressed in dirty jeans or cords and no tie or coat....

"The nisel girls are much better in this respect. Their attire is neat and clean and they are, on the whole, much better dressed than the boys." -

Shima states that he found no discrimination st all, and "there was no unpleasantness in his trips throughout the city."

Three factors that hold up the successful resettlement of evacuees, according to Ralph E. Smeltzer, director of the Brethren hostel, are unwise selection by camp authorities of nisei wishing to resettle; lack of proper instructions on behavior, dress, mannerisms, and do's and don'ts; and the fact that some evacuees are not fully qualified for the jobs they accept.

CHARGES EVACUEES ARE 'CODDLED'

RENO. June 3 -- Gov. E. P. Carville took the lend objecting to the proposed use of Japanese Americans now in relocation camps as farm laborers this summer during Nevada's peak manpower shortage.

. Carville, in a prepared statement, said, "we cannot understand the government's policy of coddling a people whose devotion to our country is debatable."
