## Explanation

Last week's editorial on comic books, pulps, and the "annoying person" who orders them, raised quite a

rumpus around here.

To the "annoying person," who turned out to be a pretty nice fellow really, our apologies. He explained that he orders good periodicals, but the agents--the Colorado News company--just send anything they had on hand, usually their own brand of pulps; and comics.
To his friends, who came around to speak on his

behalf, applause for their loyalty.

To the Colorado News company, to those who think low literature is salesworthy as long as it makes money, and to those who continue to buy the stuff, the back of our hand.

TO THE EDITOR:

In the Nov. 18 issue of our paper there appears an editorial, "We Don't Like Him." It is our opinion that the editorial aection well as any other part of our paper should not be used for such slanderous statements as the one in question.

It is our opinion that the reading matter on sale in our store is comparable with that type of reading matter sold in any average American community.

Although the reading maton sale may not be strictly suited for the super-intellects, nevertheless, the selection has such literature as it seems the editors would like our store to carry, as well as the general run of popular weekly magazines as Life, Colliers, Post, Comics, and pulp magazines.

In view of the definite recognition of relocation as the primary goal of WRA, this census assumes an ex-tremely important new function Effective relocation hinges very often on satisfactory placement and such placement will depend on the information recorded on WBA 26.

The War Relocation authority plans to initiate, within the near future, a vigorous, active job-seeking program on a national basis. Unless we know what ability, training and experience is aveilable among the residents of the various centers, such a program would prove a mere gesture. relocated here."

Such was the predominant theme of a challenging Thanksgiving message delivered by Dr. Frank Herron Smith, chairman of the Pacific Coast Wartime Japanese Service committee, at the morning worship service of the Granada Protestant church Sunday. Rev. Harry Hashimoto presided at the meeting held in Terry hall.

Elaborating, Dr. Smith stated that the barren lands, marauding Indians and crude living conditions of the Pilgrim fathers were as nothing compared to the prejudices, discriminations and like hurdles facing the nisei today. The nisei, he added, can nevertheless become pioneers in another sense; namely, in helping to bring about a universal feeling of brotherhood among peoples.

November 26, 1942

Fighting at the Sebastopol-Merced Yogore football game, Sunday, left a black mark on the center's sports program and on the center itself.

Blame for the fisticuffs, which halted the game in the fourth quarter, does not rest on the shoulders of a single person or a small group of persons. officials, whose laxity let the game get out of control; the players and their friends, who forgot the fundamentals of sportsmanship; and the sportators, including scatterbrained and ill-bred girls, who orowded about to watch the fighting and who did nothing to stop it, are all at fault.

True sports lovers have strived to prevent such occurences and sincerely hope that they are not repeated . ---- Ed .

## fight in fourth Quarter Halts Sebastopol-Yogore Grid

American league touch football game between the Sebastopol Sakura Ramblers and the Merced Yogores at the 9G playground Sunday. Sepol led at the time 14-0.

Pete Masuoka was the big gun for the Sepol lads as they scored early in the first period. Taking advantage of a blocked punt on the Yogore's 20 yard line, the Ramblers started their first touchdown drive. Three plays notted nothing. Then Pote, faking a run, chucked a flat pass to shifty Tom Shimazu who took it in the end zone for the initial tally. A conversion pass from Masuoka to end Chick Furuye was good.

On the final play of the first half, Sepol scored again; this time Pete shot a pass to end Johnny Kawata who snagged it on the Yogore's 20. Running a few steps, he lateraled to Ed Kawaoka, who covered the remaining yardage unmolested for the second score. The try for the extra point was good. As the gun sounded, the half time score stood 14-0.

BY TAXIE KUSUNOKI

There are wimmin, there are Wimmin, and there are WIMMIN. Which leads right into--

SPEAKING OF WIMMIN

Have you met Mrs. Tsuruko Wallace of 11G-4D?

Her claim to colvum fame lies in the fact that she's the only woman in this center who labors (and that's no lie) on the sugarbeet farm north of here. "Just a greenhorn among old-timers," she insists.

She can take it, this vigorous member of the (heh-heh) "weaker" sex. She has farmed all her life but maintains, "Picking oranges is the hardest work I've ever done."

She's the epitome of that knocked-out phrase, "Vim, vigor, and vitality." The fact that she's constantly on the go--from the moment she rises at 5:30 a.m. until she comes home for 5:30 supper--fazes this indefatigable woman not at all. To quote neighbors, "She's still full of pep when she comes home."

Part of this surplus vim goes into cleaning house. Yes, after eight hours of stooping down, picking up, and knocking the tops off king-size sugar beets, Mrs. Wallace still has enough of the three "V's" to tend to the woman's work that is never, never done.

She's tireless, hardworking, energetic -- hackneyed adjectives all, we realize. Probably the most apt description or Lars. Tsuruko Wallace lies in the simple statement made by a friend: "She's as good a worker as any man."

Which, in the masculine vernacular, is The Lupreme Compliment and equivalent the more expressive "all reet."

#### BLOCK JOBS EXPLAINED

There is a difference in the offices of block manaand block representager tive, W. R. Johnson, acting chief of community services, stated yesterdey in an effort. to abrogate mistaken notions prevalent throughout camp.

according to Johnson, the chief difference lies in the fact that the manager is appointed by the project director, while the representative is elected by and responsible directly to block residents. The former is a paying position while the latter is not.

For the present and until the center charter has been adopted, the representetive and manager may be one and the same person, in the opinion of the project director the person is capable of performing both duties at the same time, Johnson continued.

The charter further defines the duties and qualifications of these and other offices and Johnson urges residents to watch for it when it comes up for ratification.

#### COMMITTEE NAMED

Hiroshi Ito, Ken Rikimaru, Dorothy Sato, and Woodrow Odanaka were elected as members of a social committee at the first senior assembly held in Terry hall, S. Clay Coy, principel of the senior high school, reveeled this week.
