DEPORTATION PLAN
FOR JAPANESE
INTERNEES READY

Los Angeles—Government machinery to release alien Japanese and Germans from their internment camps either for repatriation or deportation has been set in motion here, it was disclosed Aug. 17.

Statistical figures prepared so that government agencies may be able to proceed the minute they receive orders from Washington. Directing the action here are Army Maj. Gen. Attilio Di Girolamo and Albert Del Guercio of the U. S. Immigration Service. According to Girolamo, there are 1,000 Japanese internees at Fort Bliss, Tex., 1,000 at Camp McCoy, Wis., 1,000 Japanese and 100 Germans.

ON THE OTHER HAND

By Ray T. Malone

INTO THE MAIN CURRENTS

The main currents of progress of wading into the main currents of American life, will have been measurably advanced by two factors following one another—the V-J Day and the success of the NWA.

The Issei cannot lay claim to being among those immigrant groups with the records of relatively few individuals who have attained a paradox in view of the renowned ability of Japan to absorb the Occidental ideas and tools of industrial progress. Now with the end of the war, the Issei assimilation of the Issei can be expected.

There are those querulous evacuees who feel, or take the stories they are told, that interesting stories they have to tell, that, with the defeat of Japan, evacuees can expect only suffering and degradation in the future. It is difficult to perceive the logic of this line of reasoning.

On the contrary, if this war proved nothing else to the evacuees, proved to be a Godsend in that it enabled them to send their sons to participate in the war and thereby speeding the progress of assimilation. Those who are clinging to the claim of wartime evacuation and camp life hardships, must remember that our sufferings are relative in degree, not in kind to the hardships and sufferings suffered by all Americans in this war.
