## ON THE OTHER HAND

By R. M. Takano

Hardship is a relative factor in wartime. The kinds and degrees of hardships in the Pacific theater, suggests a wide range. This is the nub of the war's chapters on domestic warfare.

When the pliant evacuees, receiving pittance subsistence allowances in military camps, recalled their military hardships to the administrative personnel drawing wages up to \$6500 a month, the picture of hardship is a different one.

"It ignores the rights of citizenship, and the rights of court-ordered practice which have been the historical attributes of liberty," Rowston replies.
