Dear Joe We are always happy when we hear from you. Your news is now greatest consolation in our family. Sorry I heard you had a bad flu. No wonder you should discourage at least for the time being. 1906 I came to the United States. I went Fresno for the sick grapes. Unfortunately ^{ately} I had a fever which took many thousands Japanese lives over here. No body take care me. I was alone in the field when boys went to work. I was almost unconscious because of fever. This was my first experience since I left mother behind Japan beyond 4000 miles away. I recall mother's love so strongly at that time mother tried best she could when I was sick if I ask something to eat she go get for me, she never take sleep a bit through night when I don't feel good. Oh mother's love! I can not enough to say by words. This is God Gift. You are most fortunate boy because you also had a good mother. Some children complains about food. he can not buy good Car or clothing etc. - Oh what a mistake he made because he forgot priceless gift

which god blessed that is mother's love.
 How about Abraham Lincoln. He
 never complain because of poor ^{he} worked
 hard labor and supported living and
 study by the fire side in ^{the} night. He proud
 his mother who educate him by bible & ^{the} perigines
