Joe, I am very glad you arrived Chicago and permitted to enter the school without any trouble. Your dream came to true isn't it? We are very happy to read your letter everytime! You reported everything big or small which you saw and met new experience. I imagine that you are just like a hatched chicken from an egg. Everything seems to be strange in the new world, even an earthworm look like terrible. They call mother hen and she chokes it feed them. I saw many times. You are climax of ambitions for hope in future, but I tell you ideal and fact is not always equal. Only furious efforts bring it reward you know. Many thousands girls dream to be famous star and they left home for Hollywood. You know what happen to them in result. Many thousands student go to Tokyo to study at higher school. Their ambitions alright, but how many student success at their school, most of them spend their time and money on other purpose instead of study. They go to coffee, dancing, drink, etc. This is true. How many Nisei study success in Japan. I understand 90 percent of them are in black list of police. As such as Tokyo or Chicago always danger for young people.

wright or wrong, but I can not worry about.
I am very proud that you are trusted son, but
only worry about your healthy. you said
