Could Be - ?

Why, what has become of the Niseis?

I can't seem to find them in the usual "Little Tokyos." Have they lost face in the world and taken unto themselves to go into obscurity? But no, that seems incredible. What has become of their plans of assimilation, cultural or otherwise, with the world? Have they given it up as being futile?

Look closely, and you will see that they have not stopped trying. See, there's my girl-friend, she has been accepted into ~~cavasian~~ ^{or} Society with out a second thought by them. And there goes Tom, he married a white girl with a high social standing ^A and he is respected and accepted by her friends. Everywhere and almost always, you will see that the Nisei have succeeded in securing that hard ¹sought-after goal. No, the Nisei are not all accepted to an extent of a hundred percent — you have its wace allowances

for those that still look upon them with skepticism. But let the Nisei rejoice for that small minority are ^A after all, human. There will be a time, and let us hope that it is soon, when that minority will let their minds rule ^A and not their emotions -

and have our leaders do the same? But, that seems incredible. Is there not some sort of realization, some sort of thinking, with the world? Have we not been through a long battle?

Look closely and you will see that there are not a few trying. See, there's Tom, his mind has been accepted into the Society without a second thought. As this way, Tom, he moved on up with a bright smiling and a smile as bright as the sun, and when at last along, you will see the true love revealed in society that flatters you. No, the Nisei are accepted to an extent of a hundred percent, but its not all allowance.
