Take off your uniform, throw down your weapons. Advance with your arms upraised above your head. Come individually, not in groups. If you have a "safe-conduct pass" (i.e., "surrender ticket"), wave it above your head.

Do not be afraid. If you try no tricks, we will give you kind, dignified treatment.

You will immediately be given food, water and medical attention.

You will be protected in a place of safety and there await the end of the war.
