## CAUCASIAN - JAPANESE NEW CHIEF COMES FROM MARYSVILLE

"I am very happy to be here and am sure that the association with the Japanese will be wonderful," was voiced by the new Chief of Police M.L. Campbell, transferred from Marysville Assembly Center, and who arrived in this center on Wednesday, July 15. Prior to Marysville, Campbell served as the Chief of Police at the Cave Creek Arizona Assembly Center.

Modest and possessing a pleasing personality, Chief Campbell stated that he was born and raised in Chicago, Illinois. He attended Northwestern University before making his residence in Phoenix, Arizona where his family is residing at present.

In police work for twenty-three years, he has served all over the United States. To close the interview he added, "Police Chief White has made it easier for me to adjust myself into the position of Police Chief here in the Center."

## CLOTHING PROBLEM

Contrary to the first announcement, orders for free clothing cannot be ordered at random from the Montgomery Ward or Sears Redbook catalog, according to the Welfare Dept. The committee in charge is facing a tremendous task in organizing the latest program of the W.C.C.A.

Tulare Center is being used as the experimentation station for this plan, sudden changes should be expected. Working with

## CLARIFIED STATUS SAYS CARTER

### Mrs. Susu-Mago in Charge

The status of Caucasian-Japanese families and persons of mixed blood has been clarified by a recent memorandum issued by the W.C.C.A. office of San Francisco, was announced recently by C.R. Carter, head of the Service Division.

There is some possibility of release for women married to Caucasians who have minor children of mixed blood, and for adults of mixed parentage. Such persons are asked to see Mrs. Susu-Mago in the Administration offices as soon as possible.

## WORK SURVEY

### Family Can Get Out of Center

Eastward Ho! On to the sugar beet fields in Montana! Anyone who wishes to go may do so anytime workers are in demand. However, if a whole family should go, at least fifty percent of the members must be able to work. Pay is the prevailing wages in the location. Transportation, housing, and utilities should all be made available by the employer. Workers who leave for this work will remain there for the duration.

## COMPLETED

Taking about a month and a half, the vocational survey, conducted by the Personnel and Records Department, has been finally completed, according to Robert E. Caviness, head of the division. The survey, which included about 3,500 individuals, intends to determine the capabilities of the people. It also finds a wide range of occupations in which they were engaged before coming here.

Duplicate cards have been made out designating the primary and secondary occupations of each individual. Two files are kept, one containing the names of those who are working, and the other the complete list of all available workers according to occupations. Therefore, even though a person is working, if a job comes up in which he is better fitted, he will be transferred.

These records will follow the evacuees to the relocation centers, and will aid him in obtaining proper employment there.

Some of the classifications include: accountant, architect, bookkeeper, barber, landscaper, clerks, cooks, drivers, etc.

Changes have also been made in the age classifications. Those who are 16 years or over have

## COLUMN-TORIAL

Talents are wanted by the Entertainment Committee. Up 'till now, the performers in the Center were obtained by voluntary procedure. It is not necessary to point out the importance of clean wholesome diversion for the people in this Center. They need every bit of the relaxation produced by the weekly shows.

The Entertainment Committee has done wonders with the material available here. The public should be grateful for the splendid efforts of this group in whipping up the variety programs. But in the course of the production end, the Committee overlooked the possibilities of organizing young people interested in stage work into a constructive group of players.

If the performers, with proper training and back ground are organized similar to that of the Community Players, we will be able to produce timely and well organized stage acts. This will encourage amateurs to get together more frequently and discuss helpful subjects which will aid them as troupers. People who have professional experiences on the legitimate stage can give discourse on the problems of the klieg lights. The subject on staging, lighting, make-up, costume designing and other essentials are important knowledge which are helpful in producing better actors which in turn will result in finer entertainment.

Actors are not made over night. Good entertainment comes from careful planning, diligent practices and hard work. Young people who seek the footlights are a race of distinctive individuals. They must be properly guided and educated. In other words, we need a Theatre Project with dramatic

## MOVIES —

"Rhythm on the Range," starring Bing Crosby will be the first movie to be shown here, according to Harold Leach, Recreational director. This is the first of the weekly shows to be presented on Monday and Tuesday nights.

A 16mm. projector made for outdoor use will be used.

## Phone Calls for Emergency

Only in the extreme cases of emergency are Center residents allowed to make phone calls or send out telegrams, declared Nils Aanonsen, manager. Any messages that can be sent via airmail or special delivery will not be accepted, he stated.

If you are in doubt as to the acceptability of the message, G. Miura of the Welfare Department may be consulted.

## PARKINSON, CHIEF PROJECT STEWARD

Donald R. Parkinson, Chief Project Steward of the WRA visited Tulare Assembly Center, Thursday morning en route to Scanlon, Arizona, from Oakland, where he will head the feeding problems for the new relocation area. Parkinson received his new appointment on July 11.

According to the Project Steward, induction of the Scanlon relocation area will commence from this coming Sunday. He will be in his new post for two weeks, until another relocation area is ready to receive the evictees.

## NEWS X-CHANGE

R.A.

A MERCEDIAN columnist writes about hair ribbons, green-flirting, red-doggerous, white-going steady, blue-kiss me, yellow-mad hater. Positions of any colored ribbons mean: torn going steady, left side in love. Plaids, oneskirts, dots and stripes indicate undecidedness; no ribbon at all, a confirmed "Old Maid." --Dear me!

## RELOCATION

Of approximately 4000 evacuees from Pinedale Assembly Center are bound for Tule Lake, reveals the TULEAN DISPATCH. Remainder of Pinedale evacuees will be bound for Colorado River War Relocation Project in Poston, Arizona beginning July 23.

Dishwashers of numerous Centers are continuously complaining 'bout the 'red stuff' --more commonly known as lipstick--left behind by young femmes on drinking cups. NORTH PORTLAND is no exception. (Tulare dishwashers ain't complainin' --or is dey?)

Interviews of an advance work crew was taken at TURLOCK, in preparation of the coming relocation movement. Purpose will be to settle the new locale and make it easier for the people who follow.

At POMONA, a ban on the sale of soft drinks, resulting from carelessness of some enrollees failing to return empty bottles and cases, was lifted after it was in effect one and a half days. --And they howl. --(We've been doing without it for almost two weeks now--throat's almost dry.)

Over 75 calisthenics enthusiasts exercise every morning at 6:15 at TA ANITA, in the 15 minute series of muscle-toning movements. Well, time marches on! And we believe we should too, so adieu. "Procrastination is the thief of time." --Anon

# OBON' TO BE OBSERVED HERE

## Bolton Leaves

Accompanying Police Chief L. G. White to Tanforon Assembly Center will be Sergeant Wade H. Bolton. Engaged in police work for the past 25 years, he has encountered many thrilling experiences--especially in the dark disease-infested jungles of South America, where he worked for three years. Prior to coming here, he was at Cove Creek, Arizona camp which never opened, then was sent to Manzinar. On June 15, he was transferred to Tulare Assembly Center.

A world-wide traveler he has become a master of many languages. Whenever he is not busy doing police work, Sergeant Bolton can be found indulging in his favorite hobbies of hunting and fishing. He also has a 'cultivated' hobby of studying mankind.

Upon his transfer to Tanforon, Sergeant Bolton will be joined by his wife and daughter, 13, who at present are residing in Arizona. With his departure, another 'good man' will be lost.

## PARTY GIVEN

A farewell party was given to Police Chief of L.G. White and wife, including Sergeant Wade H. Bolton on Thursday at L-4 by the entire Police force, commissioners and councilmen. The trio left for Tanforon on Friday.

The new Police Chief M. L. Campbell, who will replace Chief White, was also welcomed to Tulare by the group.

## INFIRMARY

The Well Baby Conference, having received a supply of whooping cough vaccine is offering it to all the children in the Center between the ages of 6 months and 3 years who have not been immunized before being evacuated.

This service will be given during the Well Baby Conference hours of 9-11 a.m. on Tuesday and Friday mornings beginning Tuesday, July 21. We urge mothers of children in this age group to avail themselves of this fine opportunity to save their children from the discomforts of a severe case of whooping cough, which, in this age group occasionally is fatal.

Under the direction of Hans Tsuchihara of the Recreational Department, the exhibit room at C-3-5 gathered a continual crowd the entire day.

Many of the getas were intricately designed with burnt patterns while others were painted with soft colors. Clever car-

toons, pencil sketches, portraits, and a water color landscape adorned the walls. Among the carved articles was a hand-carved Purse Seiner by Shoji Morihisa of C-5-2. A well-constructed model plane was entered in the exhibit by Harry Inatomi of L-25-3

## LOST AND FOUND MOUNTS

Finders keepers, losers weepers?

Apparently all finders haven't pocketed their findings as we find numerous articles turned into the police department. Claimants are asked to call for lost articles as soon as possible, as each day finds the list increasing.

Some of the articles already turned in are: several reading glasses, a key chain (brass), two bladed pocket knife, rosary, several pairs of dark glasses, Ronson cigarette lighter, eversharp pencil, several fountain pens, a Yello-Bola pipe, signet ring, Avon pocket watch, Jr., high graduation pin, nail clippers, Straford pen and pencil set, two pocket knives, Parker fountain pen, a wooden pin belonging to "Blackie",

## TALENTS WANTED

Page 5

### C. SUSU-MAGO SPEAKS

Francis Yamauchi, president of the Torch Bearers, cordially invites all young people to attend their next meeting to be held Sunday, July 19 at 4 o'clock in E-4-12. Mrs. Charlotte Susu-Mago has been acquired as guest speaker for the afternoon.

### TRY OUTS JULY 21

Busily working under many handicaps are the sponsors of the Weekly Variety Revue. Among them are two talent scouts, Ray Ichikawa and Merry Tsuda, who are frantically looking—and looking some more for talents, so that the Center may enjoy the weekly show. It is almost an impossibility to reach every individual, therefore uncontacted individuals should come forward unhesitatingly. Groups or departments are also encouraged to participate their worth.

The audition will be held 8 o'clock Tuesday night, July 21, in L-4, where only potential performers will be allowed. Sign up with Yoshiko Furuya at headquarters, C-21-5 before the audition.

### More Postage

Center residents are requested to take special notice in regard to sending copies of the Tulare News to friends outside. Several instances have revealed where shortage in postage was eminent and to avoid the inconvenience of sending it back for added postage, everyone is requested to observe that one copy calls for a 1½ stamp, two copies, 3¢, etc. When in doubt of the actual cost, conferring with the post office is advisable. Return addresses are to be written or typed on every copy sent out.

blue army kerchief, several coin bags, cigarette pouch, pocket comb and holder, dark attachable glasses, Westclock pocket watch, Esterbrook pen, number of rings and brooches, two watch chains, girls' tan sloppy Joe sweater, girls' blue sweater jacket.

### KNOBS STOLEN

Cases of knobs being removed on many of the water faucets have been found and due to the limited supply, they are difficult to replace. Everyone is requested to return these knobs if they have been taken off to prevent the small children from playing with them. All Center citizens are also requested not to use pliers in opening the knobless faucets because it often becomes impossible to place

## NO RADIOS

Undue disturbances made by ostentatious onlookers during the past several variety shows have caused the recreation committee to emulate restrictive measures for attendance. All portable radios must be kept silent while the show is in progress.

The internal police have been instructed to eject any persons that are uncooperative and misbehaving.

## 'CHOP SUEY' MOVES

The construction of the vegetable preparation box car located near the north end of the Center has now reached completion and the "Chop Suey" gang has moved 'bag and beggar' into their new environment.

Furnished with several new tables and about a dozen wash basins, the place is also air-conditioned and kept cool at all times. Moving of this crew has relieved the old laundry house for mothers and housewives to do their washing.

a new knob on the faucet after this process.

July 18, 1942

## Choir Group Popular Here

Under the able direction of Ayako Matsumoto, the Christian Choir has now a membership of 45-50 persons who practice an hour and a half every Tuesday, Thursday, and Saturday mornings in L-4 from 8:30 to 10 a.m. Due to the fact that workers are unable to attend practices regularly, night classes may be conducted if enough persons sign up at the Bulletin board in L-4 to warrant it. Until then, the appointed morning sessions will continue.

The choir will sing at the various church services and special occasions and also looking forward to learning semi-classical pieces which will be sent up from Pasadena. Accompanist for the choral group is Kiyoko Oda.

## OLDER GROUP TO EXERCISE

Because of the many requests by the older residents of this Center for the formation of exercise groups, Gohachiro Miura, head of the Welfare Department, who receives many of these suggestions, has recommended such classes to the recreation department.

Due to the lack of work, the older people are forced to be idle, a condition which is entirely contrary to their former way of life. Therefore, in order to keep fit for the struggle for existence which is bound to follow, daily exercise groups will be formed in each unit.

Also, in order to overcome the laxity in social decorum, social etiquette classes will be started for adults and young people, announced Miss Osaka of the Ed. Dept.

"The Welfare Department," stated Miura, "is the servant of the people, and will gladly take suggestions which will improve the harmonious living within this Center."

## COOPERATION ASKED

Cooperation of the Center residents is asked by the fire department, who is conducting a survey of all electrical appliances owned by the Centerites. Contrary to rumors, there will be no confiscation of the properties, therefore everyone is requested to report any electrical appliance they own to the surveyors.

This survey is being made for precautionary measures against possible fire hazards only, was revealed by fire captain, Makoto Matsumoto.

## PIPE LINES

Pipe lines and faucets for watering flowers will be laid in E, L, M, and possibly G sections in the latter part of this week by the Center plumbers, reported Paul Lamboll, Assistant Superintendent of the Works Division.

**OLDER GROUP TO EXERCISE**

Persons interested in taking these classes should contact their respective councilmen.

## CENTER FILLED

With the addition of 83 people from other camps to our Center, the Tulare Assembly Center has just about reached the full capacity mark. In order to have rejoined their families during the past several weeks, readjustments will be made to house them properly by the Welfare department.

## AWNINGS PLACED

The hard-working mess hall crews will soon be able to mop their brows in the shade, away from the hot, glaring sun, now that the awnings are ready.

Passerbys of the E mess hall have probably noticed the bright, blue awnings which shades the kitchens. Awnings for K, L, M mess halls will also be put up in the near future.

## Infirmary Aided by Improvement

More improvements are being made at the Center Infirmary by the Works Division, under E. B. Pixley. In order to air cool the hospital rooms, six foot ventilator stacks are being tested on the roofs. Field engineer, Mrs. Fullmoto is confident it will cool the rooms considerably.

The sandpapering and waxing of the floors are near completion, as is the cabinet and shelves being built for the Infirmary. Approximately seven feet by five feet screens will also be added to the hospital. They will be used to give some privacy to the patients.

Gravel walks, which are being laid around the hospitals should greatly aid towards its cleanliness. Hya Uyehara and Henry Yamagata are foremen of the carpenter and labor crews, respectively.

## Swing Band Makes Debut

The tune has been "Swing and sway with Sam Kayo", but now competition is ahead as the newly organized boys' orchestra, directed by capable Ted Yamamoto, is undergoing series of weekly rehearsals for perfection.

The boys have all played previously and striving to achieve something "big" in their prospect of entertainment. They made their debut at the Fourth of July Victory Dance and also performed at the graduation social and at last Friday night's Talent Revue.

The music makers consist of Joe Kobara, Sakanashi, and Yoshi Idomi, saxophones; Ted Yamamoto, Jordon Hiratsu, Mas Tsuda and Hiroshi Goto, trumpets; Yoshi Tsukahara, drums; Toots Yoshimura, guitar; and Noboru Nakamoto, accordion.

## CANTEEN

The L and M canteen will open from 1 to 8 p.m. everyday of the week.

As a result of two meetings held this week by various community leaders, a bull session has been planned for this afternoon for the purpose of bringing the Kibei-nissei and the Nisei together in an organization designed to break down the barriers which have kept them apart in the past.

During the meetings, it was brought out that the main handicap between the two groups was that of language. As a solution to that problem, informal "bull" sessions, open forum meetings and socials have been planned to promote good fellowship and understanding. It is the aim of Gohachiro Miura, welfare head, to promote unity within the ranks of American Citizens of Japanese ancestry to prepare for the future struggle for existence.

John Morooka has been appointed as chairman of a committee of six to work out the details of organization. An equal number have been taken from each group. They are Tomio Sugano, Joe Kidd, Suo Tabata, Ty Kodani, James Ezaki, and Hiroshi Takusagawa. ## AMEMIYA'S DANCE CLASS POPULAR

### Latrines Have Partitions

With the okay of E.E. Pixley, head of the Works Department, foreman Haya Uyehara and his carpenters completed the much requested partitions in the women's latrines last week. The similar work is being done in the men's latrines

at the present time.

Galvanized sinks for washing hands are also being added to the women's latrines by the Center plumbers under Assistant Superintendent Paul Lambell. Ken Morioka was foreman on the job.

With her three different classes, comprised of approximately 125 students, Yuriko Amemiya, modern dancing instructor, is kept 'on the go'. Classes are held each Monday, Wednesday, and Friday from 8:30 to 11:30 a.m. Evening classes for working boys and girls are conducted every Tuesday from 8:30 to 10:30 p.m.

Concert dances are being taught to the young girls group. Girls between the ages of 6-15 are studying rhythm and poise, while the mothers continue with their reducing exercises. Ballroom dancing and general exercises are conducted for the evening class.

All persons interested in dancing, exercising, and acquiring poise are cordially invited to join any of the above classes, announced Miss Amemiya.

### Cubbing Movement to Begin

The Cubbing movement, which is the junior auxiliary to Scouting has been started here, with the appointment of Yoichi Nakase by the Scouting Council, to be the chairman of the program. Working with Nakase, will be Roy Ichikawa and Ray Koyama, who will be acting Cubmasters.

About 16 young boys between the ages of 9 and eleven inclusive have already been signed up, and Den Chiefs and Mothers

will be appointed. The Den Chiefs are taken from the ranks of the senior Scouts, and their duties are to act as leaders for the younger boys. This gives them good training in leadership, which will stand them in good stead in future life.

Cubbing provides a program for boys too young to belong to the Scouts, and paves the way to entry into the older organizations.

Pasadena Cops  
Initial Tilt from  
Firemen Juniors

As expected, Pasadena  
victors subdued the  
Jr. Firemen 8 to 1 in the  
initial game of the second  
round. It was a heartbreak-  
er for diminutive Tad  
Ohana, who relieved Taku-  
seki in the first inning  
and then went on to pitch  
a one-hitter. Pasadena's  
Shimizu also tossed a one-  
hitter to nearly blank the  
Piraten.

National and  
American Tens  
Clash Tonight

Tonite's big contest of the National League will take place between the league leading Dominguez ten and the "C" Wolves. To date both tens have good record, with Dominguez slightly having the edge over their opponent.

In the American League, the contest between Lompoc and the Corporation Yard will be the highlight of the night for the runner-up spot in the league race. Compton playing true to championship form easily outclassed Gardena to still be on top with 4 victories and 1 loss.

Several replays will lengthen the schedule. Sunday night, second ranking Arroyo Grande will play the "Big Shots" Councilmen and Compton will play the Lucky Strikers. Freelancers will meet the Corporation Yard in the only Bee game Monday. The last two games of the first half of the schedule find Arroyo Grande vs the Policemen and the Corporation Yard team against the Lucky Strikers.

Next half, the top ranking teams in the Bee League will go into the "A" League competition. For the National League, the Dominguez team was boosted up and in the American League, Lompoc will be the representative. Both teams have great records and should really keep the fine records.
