'LET'S KEEP ON THE JOB'

BY TSUNEO NOGUCHI, CHR. OF COUNCIL

During our stay here in Tulare Assembly Center we have established an outstanding record of achievement and progress. The splendid cooperation shown by each individual has been invaluable in carrying out the various works and projects towards making our Center a place in which a maximum of comfort and efficiency has been attained. The ideals of self sacrifice for the betterment of the entire Center is something that is to be highly commended. Not only at work, but in your social and moral activities, you have maintained a high standard of conduct and behavior. In spite of our cramped and limited facilities, of the many hindrances of Center life we have indeed come through like true champions. The fact cannot be over-emphasized that our splendid record is the reflection of the true spirit of the people of this Center.

In the final days of our stay here, it is of the utmost importance that we all "keep on the job." Our small democratic community here relies upon each and every one of us as individuals to contribute to the best of our ability towards the day by day progress of our Center. For any one of you who falls down on his job will place an added burden upon someone else. We, the council will do our utmost to assure that our record will be kept clean. We are asking you as individuals to keep up as you have in the past. It becomes your duty to yourself and to the Center to do your job, whatever it may be. To fall down or quit will create confusion, and waste of effort and a disarrangement of the orderliness and system of our smooth running Center. The coming weeks may prove trying but remember that above all, we must not fail! So my message from the council is, let's all of us "keep on the job!"

FRET AND FUMER

FORTUNE TELLER (ISSEI)

Among the smaller sins of human nature is one so common as to pass almost unnoticed. I refer to the sin of fretting. Take any group of human beings and observe how quickly at least one member of it will begin to worry and fret, and sputter with impatience. The day may be too hot or too cold. The food may be unsatisfactory or the cooking poor.

There is no limit to the things which can be grumbled over by an accomplished fusser. What a lark in this type are people striking all the discords of life, like a child at the piano. The fretter knows how to hit every jangling chord. They see the shadows where others revel in sunlight. They discover ugliness where others are enthralled by beauty. They spread unfounded rumors and secretly rejoice by disturbing the peace of mind of others.

These persons should wear some marked ribbon or symbol of their obnoxious calling; but, matter of fact, they do! The face of the chronic fretter wears the frown of ferocity. The querulous voice, the roving eye, the nervous fret are other symptoms. To catch them at a glance, usually, and then we should get out of their way or turn a deaf ear to them. At any rate, we can wish for those pests the worst of luck, namely, that none of their predictions come true.

OPEN INVITATION

People interested in reading special literature on Arizona, are cordially invited to visit the TULARE NEWS office. Special booklets received from all Chamber of Commerce offices of the neighboring cities around Gila are now available at the news office.

CENTER GLEANINGS

With relocation being the center topic of almost every assembly area, Enoch is no exception as it is almost a certainty that they will begin their excursions to Heart Mountain Relocation Center near Cody, Wyoming when orders are given...

What Should be Our Attitude Toward Evacuations was the topic of the first of a series of Town Hall forums which drew 1,000 Centerites in Hurd...

It is a sight for sore eyes to see our former Police Chief L. G. White's name mentioned in the Tanforan paper. From all appearances, he is getting along splendidly, and what do you know? In his interview he mentioned TULARE!

"Join in the Nation's War Effort" is an appeal made in North Portland whereby the management requests the cooperation of residents to use less paper towels and toilet tissue...Oh, calamity!

A staff reporter from Fresno enjoyed the rare opportunity of traveling to the now deserted Pinalde Assembly Center and 'scooping' news there....

In the Tule Lake Camp there happens to be more men than women like us... What is it, a man's world?

The persistent cry for codes was fulfilled when these were put on the market at the Stockton Center....

The only printed periodical, the Minzner Free Press reveals that "contrary to popular belief, the printed version of the Free Press is actually costing less than the old mimeographed issue, due to the active support of friendly advertisers." This should encourage other Centers when they read about their new relocations to follow suit....

OBON HUGE SUCCESS

Drawing well over half the Tulare Centerites last Sunday evening, the 'Obon', commemorating the traditional Buddhist festival, was a huge success.

Spectators witnessed over 700 young and old people, clad in colorful kimonos, join in dancing the various ondos to the tune of appropriate recordings. The setting was eye-catching, with paper lanterns strewn across the wires in the Center Square area, while four huge lighted ones, made by Megumi Hotta, lent the perfect atmosphere for the occasion.

Center Manager Nils

Aanonsen spoke briefly, mentioning that of all the days he "shall never forget this evening. Everything is beautiful and impressive."

The Reverend Kanno Imamura read the recapitulation on the history of this 'Obon'.

General Chairman Dr. John Koyama acknowledged the electricians, Corporation Yard workers, administration, and all those who aided towards the success of the day in behalf of the committee. Due credit for the general arrangement of the ondo practice is extended Jitsuko Hamamoto, chairman.

Latest arrivals in the Center include 27 men who arrived from Bismark, North Dakota by train 3:35 Saturday morning. CORRECTION

A report published in the last issue of the Tulare News stating that Densuke Takasugi of Santa Maria had left this Center for Utah should have read Densuke Kunihiro. Apologies are submitted to the parties concerned.

BOOKS TO GO TO GILA

Hundreds of textbooks which have been collected by the Education Department will all be taken to the Relocation Center was the statement issued by Helen Osaka, head of the Education Department.

MESS HALLS FIXED

Every mess hall is now having its floor drains cleaned by the Center plumbers. Ken Morioka, foreman, says that they find two to three bucketfuls of sewage each time.

TABATA, SHOEREPAIR

The equipment and supplies for the shoe shop are here and the staff is ready to open their services beginning today.

Tokuma Tabata, 28 years a cobbler in Santa Barbara, will be foreman of the shop. Four men, Y. Sato, M. Okada, I. Uno, and H. Genishi will be the cobblers.

SURVEY AIDS LABOR UNITS

a bit of CENTER LIFE

BETTER COOPERATION

As a result of a recent survey made by Eric Kawai, field man of the Labor Relations Board and the Center Commissioners, many of the labor problems have been settled and a better understanding now exists among the workers.

This group, which spent about an hour with each kitchen and other departments, gave talks on morale, cooperation and other subjects to induce closer cooperation among workers.

SHOE REPAIR

Approximately 40 pairs of shoes are turned in daily for repairs at the Shoe Repair and Laundry Room next to the Visiting Room at the north entrance.

All those who wish to have repairs made should take their shoes before 4 p.m. and claim them four days later at 3 p.m. sharp. All laundry should be claimed 2 days after turning it in at 4 p.m. Otherwise, they will be given to the laundry or repair man. To avoid any inconvenience, everyone is urged to observe the time designated.

Mr. Shiba is asked to come after his black ox-fords.

CABINET IN LIBRARY

New cabinets are replacing the shelves in our Center Library in order to facilitate easier moving when relocation takes place. The new shelves are made so that books and magazines may be packed right in them. According to Sumire Sugita, head librarian, there are numerous books in addition to the 2,800 stated in our previous issue.

BABY GIRL BORN

The fourth child of Santa Paula's Mr. and Mrs. Fumio Wino'hata of H-21-1, was born Friday, July 31, at 9:55 a.m. The baby girl, weighing 7 pounds 7 ounces is preceded by her brother Michio 3, and her two sisters Yuriko 2, and Hariko 1. Dr. Hata was the attending physician.

Saturday, August 1, at 8:48 a.m., the thirteenth child in the Center was born, weighing 7 pounds 1 1/2 ounces at birth. The parents of the baby boy, Mr. and Mrs. Okasaki and his two brothers, Kunio 4 and Michio 2, former San Gabriel, reside in M-19-1.Dr. Takeno attended.

ROPE ON SALE

Rope to tie bundles and packages is now on sale at the Center stores, according to Ben Turpin, manager. In order to prepare for the coming evacuation, many other essential supplies are available. Also, cookies and other similar articles are on sale with no limit placed on them.

There will be plenty of opportunity to spend coupon books before evacuation, he added.

KIBEI NISEI MEET

The Kibei and Nisei group will have another party in L-4, Thursday at 8 P.m. Dancing and games are scheduled, and refreshments will follow.

The purpose of the organization, which is to promote good fellowship and Americanization, is being carried out by informal gatherings and socials which tend to foster friendship and close understanding between the two groups.

The scene is any Sunday night in the grandstand at the Tulare-Kings County Fair Grounds, where 5000 Japanese evacuees from the West Coast are housed. Tonight, there is a joint meeting of the Christian and Buddhist groups, an event possible only in a democratic country such as the United States.

As we climb the stairs and emerge onto the grandstand in the early evening, we can see the orderly rows of the tar-paper covered barracks in the immediate foreground. Beyond the enclosure, there are trees. Green and lovely, they seem to protect the surrounding people from the mid-day heat of Tulare.

Away off in the misty, purple distance, the rugged snow-capped mountains forma breath-taking backdrop for scenes in the foreground.

Now the sun is setting. As the worship service progresses, the moon, full, and in all her brilliant glory rises over the mountains which are gradually disappearing in the gathering dusk. The speaker mentions the rising moon. All eyes turn to look at the majestic heavenly body, and an air of peaceful contentment dominates the congregation.

Night is taking over. Even the trees have faded away. As the stars appear one by one in the heavenly void, so do the lights over the barracks, as the lamplighter makes his nightly rounds.

As the worshippers stand to sing "America the Beautiful", and receive the benediction, night has taken over. The children who were playing in the wading pool have gone home. Peace dominates the Center. And now, as we file out of the grandstand, there is a feeling of contentment and an inner peace resulting from our truly democratic worship services.

"SNUFFY" LEADS J' MESS HALL

Since gaining when the J Mess basketball team is playing, you will notice a very energetic lad furiously leading the gathered crowd in various yells to support his favorite team. This "personality gent" is Masaharu Inaba from a ham-bra, better known to his close friends as "Yardbird".
