PUBLIC LAW 863 HELPS ALIENS TO CHANGE RESIDENCE STATUS

WASHINGTON, D. C., Sept. 15-According to the Washington Office of the JACL ADC, a recent issue of the Federal Register contains an official statement of the application of Public Law 863 which will enable "ineligible" aliens residing illegally in this country to change their status to that of permanent residents.

Public Law 863 is better known as H. R. 356, the "Stay of Deporta-Congress the day before adjournment at the insistence of ADC national legislative director Mike Masaoka.

The Federal Register statement signed by Watson B. Miller, Commissioner of Immigration and Naturalization, describes a special procedure to take care of an application by an alien for suspension of deportation prior to arrest. This special procedure became effective Sept. 2.

The Washington JACL ADC Of- lowing papers: fice was informed by the Central Office of the Immigration and Naturalization Service that its field offices have been told to abide by these new instructions. An alien ineligible to citizenship residing unlawfully in the United States and thence subject to deportation may now apply to his local Immigration Office to have his status changed.

In order to qualify, however, the alien must be of good moral character, and he must either have been a resident of the United States for seven or more contin-

D. C. OFFICIAL SEES LOCAL UNITY IN JOINING CHEST X-RAY PROGRAM

"One of the most outstanding demonstrations of community participation in a health project", the first week's response to the Seattle Area Chest X-ray Program was termed by Dr. LeRoy R. Allen of Washington, D. C., medical officer in charge of the United States Public Health Service Personnel for the program, said this week.

Nineteen X-ray units began operation in downtown Seattle and in five of the smaller cities in the south end of King County last week to offer every person 15 years of age and older a free chest X-ray.

"No other American city has ever given such a send-off to a tuberculosis control program. The tremendous response gives me assurance that Seattle will be able to carry forward to the goal of 400,000 chest X-rays by December 18-making it the largest fast-tempo X-ray survey west of Washing-
