SABATH VOWS SUPPORT OF ISSEI RIGHTS

CHICAGO, Ill., Nov. 27—Congressman Adolph J. Sabath (D), representative from the 5th Congressional District of Illinois, is not only interested in the passage of legislation granting naturalization privileges to Issei and the repeal of the Exclusion Law of 1924, but would do everything he could to support it.

This assurance was given Tats Kushida, Midwest Regional Representative of JACL-ADC in a recent interview.

According to House of Representative seniority rules, the 82-year-old Congressman, who has served continuously in Congress since 1907, will be chairman of the powerful House rules committee.

CHICAGO, Ill., Nov. 27—Paul H. Douglas (D), United States Senator-elect from Chicago, assured representatives of the JACL-ADC that he will support the passage of the naturalization bill in the 81st Congress. Senator Douglas not only expressed his sympathy for the principle of this legislation, but stated that the Nisei GIs "have certainly earned it."

Senator Douglas told Mike Masaka, national legislative director, and Tats Kushida, Midwest regional representative, that he was proud of the fighting record of his own First Marine Division to which were attached a number of Nisei Intelligence men. He added, however, "But I take my hat off to the Nisei GIs and I have often said publicly that the 442 Combat Team was the greatest fighting unit in our Army."

BIAS NOTED IN CHICAGO CEMETERIES

CHICAGO, Ill., Nov. 27—Chicago cemeteries will not accept Japanese for burial. This deplorable situation was revealed this week by the JACL-ADC Midwest regional office.

Although the Mutual Aid Society, an Issei welfare organization, has a mausoleum at the Montrose Cemetery where, until recently, a limited number of plots had been available, families of deceased Japanese persons now have no alternative but to request cremation, it was learned from Dr. Jitsuo Morikawa, pastor of the First Baptist Church.

Tats Kushida, Midwest regional representative of the JACL-ADC, announced that the Chicago JACL chapter in cooperation with the Chicago Commission on Human Relations and the Chicago Council Against Racial and Religious Discrimination and other groups, is undertaking a campaign to remedy this discriminatory practice.

Bailey Gatzert Pupils Applauded For Urging Parents to X-Ray

X-ray officials doffed their hats today to the pupils of Bailey Gatzert school for doing an outstanding job in persuading their parents to get chest X-rayed last week.

As part of the school's health

education study, each pupil asked his parents and older members of his family to come to the nearest X-ray machine to get their X-rays. Tuesday night, when the latest figures were available, 966 pupils tallied up 1,009 family members who had received their X-rays in the neighborhood.

"This is an outstanding job of real community cooperation," Lawrence Bates, chairman of the community-wide program, said. "If everyone in Seattle follows this example we are sure to reach our quota of 400,000 X-rays."

He urged persons who missed the machines in this area to visit one of the units downtown on their next shopping trip before Dec. 18, when the program closes.

In charge of the Bailey Gatzert school undertaking were T. P. Alajama, principal, and Lucile Neal, school nurse.

Now You Can Send Money to Japan

Remittances can now be made to Japan in any amount up to \$1,000 per month, according to Mrs. Ed Natori of the International Branch, Seattle-First National Bank, 526 Jackson Street.

The money will be sent either by cable or airmail. The present rate of exchange is 270 yen to US \$1.00. For further information, contact Mrs. Natori at the bank.

Claims Queries and Answers

(Editor's note: This is the seventh of a series of questions and answers on the evacuation claims law prepared by Edward J. Ennis, JACL Anti-Discrimination Committee special counsel, and released by the Washington Office of the JACL ADC as a public service. This series is based on actual questions asked of this office.)

(Any reader who has general questions relating to the law itself or to procedural matters is invited to address a letter with a stamped, self-addressed return envelope to the Washington Office, JACL Anti-Discrimination Committee, Evacuation Claims Section, 300 Fifth Street North-east, Washington 2, D. C. Questions of general interest may be produced in this series without personal identification.)

(No questions involving the legality or value of specific claims can be answered.)

1. Q. Is it possible to get a cross section of the community and establish a normal holding and average loss? For instance, in Petaluma the Japanese are all generally chicken raisers. Or, in San Mateo, the Japanese are generally landscape gardeners. By establishing normal loss or the value of an average holding, it may be that many who might possibly be uncertain and reluctant about claiming should be guided by the average loss in their communities.

A. In determining the amount of claim of any one chicken raiser in a community, general factors of value, no doubt, will be found which will be applicable to other chicken raisers in the same community. When the claims in more specific cases are determined, average fac-

tors of losses applicable to other cases may develop. It is not perceived how a "normal holding" can be determined, because claims must be prepared on the actual holding of each particular case.

2. Q. There are instances of abuse of power of attorney because of the general feeling evacuees might not be able to return for a considerable period. Is it possible to recover from this law for such unwarranted and unauthorized abuses of power of attorney?

A. The law allows recovery for losses which are the reasonable consequence of the evacuation. A loss due to an abuse of a power of attorney given because of the evacuation may very well be considered to be a reasonable consequence of the evacuation and recoverable under this statute if the claimant shows that he is not able to recover from the holder of the power of attorney. Where, however, a good case exists against the holder of the power of attorney, the Government might require that this private remedy be exhausted before it will determine that the loss is payable by the Government as a reasonable consequence of the evacuation and not due to the claimant's failure to attempt to collect from the private person who abused the power of attorney.

3. Q. Rental of my ranch, equipped with tools was arranged for \$10,000 a year. My tenant got into difficulties and I offered to settle if he would pay me \$2,500. He never paid me and later he went bankrupt. What amount can I claim?

A. If \$10,000 a year was a fair rental it appears that your loss may be calculated on this basis with-

Cathay American Legion Unit 186 Boasts Enviably Achievement Record In Jackson Street Community Work

MRS. DAVID LUKE

An outstanding record of community service has been attained this fall by Cathay Unit 186 of the American Legion Auxiliary. This organization, which is a member of the Jackson Street Community Council, has only 40 members, but has participated in six community projects and has won two American Legion awards since the first of September.

Three deserving families received complete Thanksgiving dinners through the generosity of the unit, which collected, packed, and delivered the food. Two layettes including everything from diapers and bed jackets to bottles and nipples have been given away already and one more is completed and will be given to a family which needs this help.

Mrs. David Luke, president of the unit, announced that her group has also worked at the headquarters of the Anti-Tuberculosis League stuffing Christmas seals into envelopes and members have signed up to sell the seals at a booth in one of the large downtown department stores. They have also served as hostesses at a downtown TB X-Ray truck during the current city-wide mass X-Ray program.

One of their most successful projects was the soliciting of a large area for the Community Chest. Teaming up with members of the Cathay Post, they covered a 30-block area and turned in 169.42 per cent of their quota.

The first district of the American Legion awarded the unit a prize for being the first group to have all of its membership dues paid. Another award was also received for having the most members in attendance at the first district conference last September.

Private rites were conducted for the Nakashima brothers. Pvt. Nagano was buried at a mass funeral conducted by the army, followed by private graveside rites.

WHAT WITCH HUNT?

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

"NO COMMUNIST," no matter how many votes he should secure in a national election, could, even if he would, become President of the present government. When a Communist heads the government of the United States—and that day will come just as surely as the sun rises—the government will not be a capitalist government but a Soviet government, and behind this government will stand the Red army to enforce the dictatorship of the proletariat."

Please read the above quotation again. Could an American have said that? Or does it sound like a message from Moscow? Indeed, everything in that statement is un-American. It was written by William Z. Foster, head of the Communist Party in the United States. This statement is reprinted in large type on the back of a pamphlet prepared and distributed by a Committee of the U.S. House of Representatives. This is the Committee that is accused of "witch-hunting."

A Communist Condemnation
NOR IS the Congress guilty of distributing the sayings of Communists as propaganda for the Soviets. The publication which carries Mr. Foster's sworn statement is very much anti-Communist. The booklet is called: "100 Things You Should Know About Communism in the U. S. A." It is one of a series of five publications "on the Communist conspiracy and its in-

fluence in this country as a whole, on religion, on education, on labor and on our government."

By giving Mr. Foster a prominent position on the back cover of this booklet, our Congress hoped to show Americans that native Communists really condemn themselves whenever they open their mouths. In the quotation, there is revealed Communism's greatest appeal: the lust for power, and the urge to dominate others that some people have. There is revealed also its greatest weakness, for people everywhere do not like to be dominated by force. People like to be free.

Apologies Not Needed

THE CONGRESSIONAL Committee to which I refer is the Committee on Un-American Activities. If you have ever listened to the palaver of Communists or the "fellow travelers" (Communist sympathizers), the chances are you have heard this Committee of Congress strongly criticized. Like the committee says, the right answers given in the booklet, by using the facts, must certainly infuriate the Communists. It is true also that many of these right answers will shock the average citizen who has not studied the "ism" closely.

It is not my purpose to apologize for the Committee on Un-American Activities. No apologies are needed. It has done a great service to the American people in a time when light and facts are needed to clear up so much confusion. If the Committee has made minor mistakes in the course of its work, it has at the same time done a glorious job in reselling our people on the American way of life. It has opened the dark secrets of Communist conspirators.

The Communist policy is to break down existing nations any way they can, and in the confusion to seize control. They will promise every kind of "better life," but they have never been known to deliver it. As an American, I am thankful for the work the Committee has done. I say with the Committee: "You know what the United States is like today. If you want it exactly the opposite, you should turn Communist. But before you do, remember you will lose your independence, your property, and your freedom of mind."

Claims Queries and Replies

(Continued from Page One)
out reference to the sum of \$2,500 for which you offered to settle but which your bankrupt tenant never paid.

4. Q. I had patented a certain strain of chrysanthemums and had built up my stock from 1939. Without making any sales I had carefully increased and propagated my stock with the intention of selling it in 1942. Because of the evacuation I did not want my patented chrysanthemum stock to fall into other hands. Because of fear of other capitalizing on my development, I destroyed my large stock and retained only a few bedding plants. Can I claim for the plants I had destroyed?

A. This raises the question whether the means you used to protect your trade secret was a reasonable means so that the loss was a reasonable consequence of the evacuation. If the trade secret could be preserved by less drastic measures, the view might be taken that the loss was not due to evacuation but to the claimants' separate independent action. In order to receive a determination by the Government it will be necessary to file a claim which should include an explanation as to why destruction was the only safe way to preserve this stock.

5. Q. My peach orchard and strawberry patch which I had nursed along had just reached the bearing state when I was evacuated. The best harvest years were during my absence. Can I claim for the crops harvested by my tenant? If I were permitted to remain, I could have realized the entire proceeds. The rental was very nominal and did not reflect the income which was realized from the harvest.

A. It appears that you have a good claim at least for the difference between a fair rental for the property and the nominal rent that

you received. But if, however, your claim is not for fair rental value, but the actual proceeds received for the harvested crops, less expenses of harvesting, there arises some problem whether profits from future crops might be considered as anticipated profits and not allowable under the law. In a particular case, that might be allowed if you could show that these harvests were not speculative. In other words, you have a clear claim for the fair rental value but a somewhat less clear claim for the profits from the harvests. Perhaps the safest course would be to file your claim in the alternative.

6. Q. On my farm I had purchased new tractors and trucks two years before the evacuation. On my income tax I had claimed depreciation which I could amortize in five years. Since my income was below \$500 I did not file income tax returns and did not claim depreciation during the evacuation. The law says depreciation must be claimed in the successive years without skipping. Can I file for my unclaimed depreciation during exclusion from my farm?

A. It is difficult to answer this question without being advised whether you sold your tractors and trucks at the time of the evacuation. If you did sell them for less than their value you can make a claim for the difference. But then, of course, you cannot also claim depreciation. If you did not sell them and still have them and do

not wish to make a claim for their loss or damage under the Claims Act, you may then have a claim for depreciation under the revenue acts. If you now begin again to claim depreciation you could seek a ruling from the Bureau of Internal Revenue on the question whether you would be allowed to skip the years during the evacuation because you were not using the tractors and trucks during that period.

7. Q. The man to whom I had leased my farm went bankrupt after three years as a result of inexperience and poor management. Can I claim for what I would have made if I had been allowed to remain, based upon my previous year's income? How about my tools and equipment which were seized by my bankrupt creditors?

A. Congress intended, under the law, to pay for losses caused by forced loss due to evacuation and subsequent loss due to mismanagement by lessees. In determining the amount of loss you certainly may consider as one factor the income received from the farm in prior years. You should also claim the value of the tools and equipment because their loss was due to your evacuation and failure to be there to protect your property.

Singles—George Tanagi, Northwest Times, 234.
Series—Bill Tanaka, Over the Top Beverage, 595.

Northwest Times had more than luck last Tuesday night in the Nisei Commercial league in Main Bowl.

The Nisei newspaper's tenpin aggregation not only turned in a 3-0 victory over Cathay Post but ascended to the number one place in the standings for the first time this season.

In the N. W. Times' triumph, George Tanagi (579), Tommy Hirai (583) and Yukio Kuniyuki (542) were the asterisks. Tanagi's 234 game in the second was the high for the night, and Hirai rolled two 200's.

In the meantime, second-place Over the Top Beverage slaughtered City Produce, 3-0, by piling up 2787 pins. All of the beverage outfit's men hit 500-plus series. Bill Tanaka set the pace with 595 which included 210 and 233 games.

The remaining contests ended in victories for Sakahara Insurance, 12th Ave. Service, Higashi's Mobile Service and International Realty.

Shig Urakawa continued his blistering pace for Shanty Inn which bowed to International, 2-1. Urakawa's series was 574.

Once-leading Puget Sound Vegetable Growers Association dropped a 2-1 count to Higashi's.

Shoichi Suyama shattered the wood for 541 in the Sakahara 2-1 decision over Main Drug, and Taiji Takayoshi (556) was boiling hot for 12th Ave. Service which dumped Puget Sound Laundry of Tacoma.

Hank Tanabe (201) hit the pocket consistently for the laundrymen.
