March 25, 1985

Dear Frances,

I was thinking about you while attending a Western Gerontological Society Conference in Denver, that I should have asked you to join me at the conference. It was an excellent meeting. You could have roomed with me. Perhaps next time.

It was good to find your postcard on my return. I asked around and this is what I came up with.

Dr. Robert Shiomi

Portland, OR 97201

Telephone: [REDACTED]

He does not practice any longer. He is almost completely blind, I understand.

Dr. James M. Watanabe

Spokane, WA 99208

He may be of assistance to the project.

Mr. S "Buddy" Ikata has a complete file of the Minidoka "Irrigator" I am told. It should be a good resource. His address is

Portland, OR 97214

Unfortunately Miss Kimie Tambora who edited the paper passed away two years ago. Her co-worker there was Calvin Ninomiya

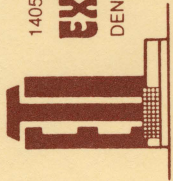

Chevy Chase, MD 20815

He may be of help.

I haven't contact any of these people. Right now I am involved in applying for HUD grant again due by May 15th. I hope the above information are helpful, and I wish you and Mr. Townsend success.

Will you be attending the reunion of the Hunt '45-46 class in Seattle?
