AMERICAN RED CROSS

Dear Francis Edith Haglund .....(th e best darn  
science teacher there  
is.....)

Greetings once more from this side of a  
crazy world...boy it seems like and must be ages  
since my last letter...sorry for playing Hooky  
for so long.....

Well here I'm an orphan...believe it or not  
the Second Battalion has just called it ...30....  
and along with it goes the GREAT F Company  
after 3 glorious years Fox Company has finally  
deactivated and now no one but the colors stand

All of us who have been through combat and  
been through it all under the colors of Fox Company  
sure feel helpless and sad....we threw a final  
farewell party and we all cried our hearts out....  
we had the best ~~§§~~ company in the Regiment and now  
it sure is hard to believe its gone.....

Well most of the boys are going into companies  
of the 100th Bn. yours truly is attached to the  
Information and Education department of the  
Regiment...I'm to be a member of a 3 man lecture  
team that goes around trying to present topics  
on current events..homefront news...advice on how  
to get an education...very interesting work...  
and they name it...."Bull Sessions" .....ahem....

Besides the lectures ole basketball keeps me  
prätty busy...the team won the mythical crown  
yesterday...we sport a record of 9 victories  
against 1 defeat...don't ask me how the later  
slipped in there .....we're to play the AAl-Stars  
for the zone championship and when we pull through  
that its on to Rome or Naples for the theatre  
championship ...and then...well lets not gon on to

2..how about me disecting that ~~ffffs~~ frog for you

AMERICAN RED CROSS

that...anyway wish us Midgets lots of luck...  
and say a prayer for the All-Stars.....

Well enough of the chatter from Italy...  
and lets talk about Detroit's and Cannon Falls  
pride and joy.....how are things with you and  
hope all is well ...not having too much trouble  
with tomorrow's brain trust's are you???--ah  
but what lovely trouble....oh yes sah. ....  
if you can't find enough time for all of them  
just ship them over here and I'll see to it  
they get plenty of very personal attention....

Give my kisses to Jane May June and Bette.....

Holy cow ..after such a long absence I still  
haven't much to say...goes to show you not too  
much happens around here.....

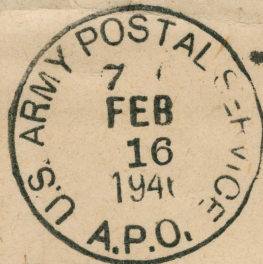

Well then till another time...take it slow  
and don't be too rough on the crew.....

Till tomorrow then....

Swishingly,  
bulll

PS.. am enclosing an interesting study of what is  
described as "Natures Greatest Blunder".....  
or "An Upheavel From The Ape".....
