

Peter: Here are some random thoughts for "theme" of 1962 JACL Confab:

- Moving Forward into the Sixties (it's the start of the 60's)
- Total Image (the individual contributions...the context)
- ⊗ Yesterday/Today/Tomorrow (the past, the present as guides to...)
- Convention in Depth (depth...let there be fun, too...and meaning)
- Patterns for Living (to guide our daily living as JACLers)
- The Common Faith that made us what we are (a little long...)
- ⊗ All Welcome Here You Find (fun...fun...fun...cordial welcome)
- You Ask Me, Why? (yes, why JACL?...re-dedication...what for?)
- With Courage & Confidence (ug...)
- Enthusiasm is the Ingredient (it's priceless...it's the impetus
(that makes an organization go
(beyond the ordinary...Enthusiasm!
(No real success can come without it.
(It's the competitive spirit, loyalty
(and creative effort. Enthusiasm...
(it's priceless...an ingredient so
(lacking here (this is not criticism)
(but for a handfull of people. What's
(Seattle JACL's membership to total
(population...what percentage? And
(what's meeting attendance to total
(membership...what percentage? The
(key word is Enthusiasm -- the lack
(of, perhaps?)
- We, too, can prosper (as other groups have integrated...)
- ⊗ Which Way Ahead (Forward...but which way ahead?)
- ⊗ Walk with a Separate Pride (A distinctive pride...of being
(what we are...)
- Pattem for Tomorrow (blueprint for progress...guide...)
- Concept to Completion (the formulation and execution...folo thru...)
(JACL conceived in Seattle)
- Inspirations for Greatness (meeting and being inspired...to
(move forward)
- Motivation
- Program for Motivation (what motivates people to serve...to belong)
- Framework for Growth (organization...systems...chart the course...)
- Now, let's Move On...
- Imagination at Work...
- Seize the New Opportunities...
