Dear Sir:

In the recent edition of the Rocky Shimpo, we noticed your advertisement specializing in prescriptions. As medicines are wholly lacking here, except for emergency prescriptions issued at the center hospital, we feel certain that a mail order business could be opened up here in this center. Many of the residents are in need of certain Japanese prescriptions and we know that your services would be appreciated.

The Manzanar Free Press is the official center publication, issued twice weekly, Wednesdays and Saturdays, free of charge, to the residents. Circulation reaches other centers as well as to various sections of the nation. The Free Press is dependent solely on the kind support of its advertisers.

Advertisement rates are:

75¢ per column inch  
2% discount for bills paid within 10 days  
10% discount for contract of 3 months.

A trial will convince you of the merits of advertising through the Free Press.

Hoping for your favorable reply on this matter, we remain,

Very truly yours,
