March 17, 1944

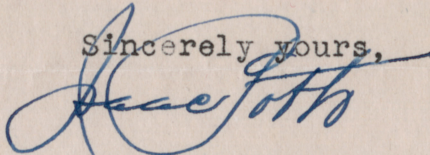

Dear Mr. Dimoto:

I hope that your inability to start today will not be serious as far as my place is concerned. I am confidently looking forward to have you begin work early this coming week.

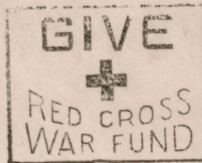

It is probable that I may not be around Monday, but if I am not, just go right ahead and do what you think is necessary immediately.

Perhaps if you have seen some good farming property in the Manchester neighborhood, I may be interested myself. Remind me of this when you see me.

Sincerely yours,

Isaac Potts
