Dear Ken,

I know it's been a long time since I received your letter, but being lazy and good for nothing of course I didn't take time out to answer.

My conscience has been bothering me so I just have to write. Pete and Ronnie are fine and I'm glad that Sally and the children are all O.K. Pete and Ronnie have been visiting me in Salt Lake and just went home April 30th. I'm not sure what I should do, what with the draft and all. I want to relocate the family but not knowing about the draft. I'm I.A. now but only had one call for a physical and then was told to go home and wait until further notice and that was last month.

Business has been pretty good, but it has slowed up, and I sure hope the slow-up is just temporary, because it looks like I may get a District managers promotion. (I hope).

The Vice President of the Co. came through on his way to New York, and we had a nice long talk together. Seems as tho my dreams may come true. The Co. may organize a Japanese agency here in Salt Lake with sub. agents in Wyoming, Idaho Utah and Colorado. Will know enough about myself. How about you have you been keeping yourself out of trouble. Don't it make you mad when some dumber heads like the police that picked you up just don't know any better. I suppose by this time you may have the family out and settled by now. What about your schooling in Architecture, do you plan to continue? Saw Nobie a few days ago and he tells me that he is 1-A, my brother too. Did you know that Sei Yoshikawa is at camp Savage.

Will know give my regards to the family and lots of luck and I'll have to write again soon.

Hideo.
