

July, 28, 1992

Dear Kan, First let me say I feel so honored to be invited to your birthday.

My only regret is that I will not be there to honor and enjoy the festivities - as you know Kan, I really do not go anywhere, even to my children and grandchildren.

But my heart wishes to be there with you, your family and friends, to personally wish you the best.

Life is full of love relationships, with parents, wife or husband, children and grandchildren

But most of all in life, there is love of friendship and according to the "Good Book" friendship is a priceless gift, to have and enjoy through life.

Such a person, is you, my esteemed friend, you - we go back many years

and always a deep and sincere respect for each other.

Our conversations over any subject, politics, religion, family, nationality, landscapes, rocks, your rocks' and mine, and do with them and see the beauty and strength, that comes from working and loving the rocks.

I think we enjoyed these times together and there were times the conversations were exciting, stimulating and educational.

So Kan, You know me pretty good and when I wish you the very best you know it comes from my heart.

Happy, Healthy 80th Birthday
Dear friend.

Enclose a gift for the many times you brought me photographs of my Stone & Yours.
Affectionately Yours,
Rosie
