

Dear Sally, Han,

Its cold up
here & that is good
because the fog is
discouraged by cold.
There is a fish hawk
on the boat in this
remote harbor (on an
island), and just
now when I threw
an edible bit for some
hungry creature, three
day fish sharks swirled
up to the surface - quite
a surprise. There is
also a white throated
sparrow. Best love round
from us Geo. & Betty
