Dear Sam —

You've probably heard about
Bernick already in your circles
but I thought you might want
to read the details in the N.Y. Times.
Mick.

P.S. Meant to mail this sooner but have
been busy being a mom's "extra"!

(See over)

Went to American Craft Museum
with (Kino-Okebo. What a stunning
representation of American crafts!
Loved much of it - dazzled by a few -
aghast by few. Sotiguchi's rice paper
bowls enchanting - liked some your own
Hickman (?) wooden bowls better than
handsome one shown.
