

Thursday -

Dear Ken: Been waiting for a letter but none so far - guess you're pretty tired at night now - take it easy honey - Gosh, if you could it would be swell to become permanently attached to that place - at least - if you could stay on after the war - (Mimi's been using my pen so it's writing the check now - boy, does she write letters now! - not with pencil anymore - below her dignity - she's got to have my pen or nothing - maybe you can find a 10¢ one & send it to her).

Friday -

Don't have much time but hope things are okay with you - The children are fine - getting fatter each day & eating so much now - The weather is still terrible - sometimes it clears up at night so I get hopeful but it's always cloudy in the morning.

John came down the other day - he seems fine but is having some difficulties with Thais who's getting kinda bad & unmanageable.

Oh - the inductees (who were put on reserve) all left for Fort Logan the other day - they're apparently destined for a camp in Florida - a ~~good~~ bunch are going on the 10th.

The transfers from Jerome are coming here on the 15th of June - Golly, honey, do you think we'll be out of here by then - I'd prefer to be out 'cause the room next door is destined to be occupied by a family from there.

Gawking - Dick took some pictures of the heels before he left - sent them & negatives to you - he kept the pictures & gave me the negatives & I can't find them now - golly. I'm almost convinced I either threw them out or

sent them off in a Montgomery Ward order - Too bad.
your camera hasn't come yet - I'd like to take
some pictures of the kids for my morn' on
Mother's Day but don't know anybody who
has a camera for 1.50 per.

I need a pair of shoes awfully badly - white ones
& brown ones have holes all the way through
now - Can we afford it? Miki also
needs shoes badly.

Will write more later - did you see
your sisters? - Notice how fat both of
them got.

Take it easy
Love

Sally

Could you sign some checks to me - I don't have
any more - Am enclosing blanks.
