

Dear Kim:

Have finally put together 48 years of research in painting into one and I am finally with understanding, Knowledge and Mastery. actually it is to find ones' own identity, handwriting and to become a whole person again. The key here is understanding of People and life.

In the highest Top inner vision beauty and the challenge is in the realm of Gods and science as everything returns to Truth and Universal so it is a difficult alone road.

I will be having a 5 decade sponsored retrospective exhibition in Boston on March 3, 1993. I will know more when things take shape.

Hope there have been well you ways.

Merry Merry! and Happy Happy!
