

Friday Thursday

Dear Ken: I got the statement from the bank & wire practically
banked - \$114.86 - I say 'holo 'cause your brother hasn't
taken the \$100 out - shall we let it go & decide he isn't going
to take it? We'd certainly given him enough time - & by now
he must certainly have no intention of taking it - frankly,
there no ~~ground~~ ^{ground} qualms about it - ~~to~~ I think he feels it's a
way of paying back 'back reports' - sort of subtle-like,
I suppose - anyway what do you think? Let me know right
away 'cause I need new shoes & some other stuff - also
if you decide it's okay - please send the checks signed.

Oh - Mother's Day is on the 14th - I think it would be good if
you'd send my ma a box of candy - her birthday is on the
19th too. By the way she knitted ~~XIII~~ a cute blue
striped sweater - got it day before yesterday - I have to
write & ask her if she has more yarn to fix it 'cause

(guess I started out wrong on this paper)

the sleeves are too short - he's big for his age - oh - has 8 teeth now.

The letter you mailed on the 30th (stamped 4:30 P.M.) came yesterday (Wednesday) - regular mail is just as good as air mail from N.Y. - how about the letters from here?

About the stuff you want - I'll send the triangles + Tagners by Parcel Post - not sure how to wrap them yet - and the box of lint stuff will probably have to go by Express - not sure how I'm to get it down to Granada but will find out right away.

About my leaving - you'll have to find a place for us first - I haven't written to Kizi asking her if she'd be interested in going to N.Y. but will do it as soon as I get a reply to a letter I wrote to her not so long ago - I think we should pay her something if she does - K III is bigger & act. over than you can imagine & not fit to take care of any

longer - either is Mike. How long does it take to go to N.Y. from here? I think I will want to stay over a day or two in Chicago & visit with Mary. (to be continued)

Saturday -

Before saying more about the above - today the box of art goods left for you - American Express Collect - that was done under Kumaudo's suggestion since he said chance of your getting it were more certain than - he sent it off for me because I couldn't get away to go to Granada - he went down to the Property office to see how he could get it to Granada & in about 15 min. came back with a car for it - so honey I didn't even get a chance to see what was in it or what was floating around in the room that might have been good to put it in - sorry about

that - but I did put in some yellow paper & a book - the one you ordered at Xmas time - it came the other day - also to fill space I put in Denver Post & I think the last 57. Chronicle. The most imp. items however, are sent yet - your triangles & T squares - I can't do it today so I will make certain they go off on Monday - wrapping is a problem but I've decided to use a piece of board as a backing & wrap it with that heavy paper out in the vestibule.

Man, it's hot today! Tak Negie dropped in this morning - she's on vacation so came to visit her family - Mr. Ohi came here on ~~business~~ business - so she came along - visiting Amy Hinshie's family. She looked so very happy - in fact, said she wasn't seriously considering going to either N.Y. or Philadelphia - preferably the former - job offered from

before it gets too bad.

Gads, its hot - by the time you see me I'll be able to pass for a Filipino - this combats running after Mikei gets to me plenty brown.

Both kids are getting a nice tan now too.

About the bank acct. - I've got all the checks too & you're to do it all among them - if he tries cashing it at this stage of the game - its too bad cause the other day I cashed at 15 checks - that means he wouldnt get but some \$99.14 - too bad!

George also came around once - see him off on but he didnt come in - he's busy trying to round up potential Seventh Days - living in 114 - instead of 104.

After he talked to me a little while - he literally shouted (woke up Kango) "God, you havent changed a bit" - So I said - "What the hell do you want anyway" - then he said he expected me to be

pretty much an obasan, "after all you got 2 children now" - So - all I could say was "Some people get upidly age before their time" - Heck just cause his wife got fat and middle aged looking after one baby is no sign ever one else

will. He's had his physical 1A - passed, & is
worried about induction - said practically all
the people from the Hayward board have been
reclassified. Yoshimi Shibata is going into farming
cause he passed his physical - he's about my age.
Anthony Miller is the chairman of the board -
Al Fragar has nothing to do with it any more.
Guess yours just ordinary.

About a house - if we have to buy one - well, that's that - can't
help it - I can't suggest my family as possible lenders of
money 'cause I know they haven't got any - Wah, of course
would be awfully hurt if we didn't borrow anything from
her - ~~but~~ ⁱⁿ the last letter from her she said "I guess
both daddy & I will have to work so that you ^{can} come
and that I will be able to visit you when you arrive."
also said what she doesn't like about Boston is that
it's too far from N. York & us. So there you are.
Course there's your brother, Taki, - I don't know
anyone else - a bank maybe.

K III bursted my specs! - pulled them off my face &
slammed them onto the floor before I could get my hand up.
