Dear Sally,

Was so glad to hear from you and to catch up on your welfare and family progress. My very best congratulations to you and Ken on Spike (is that his name or your writing?) I had heard "rumours" that you had added something new but never believe things like that unless there is writing.

Dolly and Bonnie Jean are in the Extension Division now, but aside from them I rarely hear from or see the old

This paper is a little complicated for more than a note but I don't think there is a law against using it this way if I want.

Volita Dubro Young is in Braeden too as you may know <sup>but</sup> I don't imagine she knows Grace Beardsley. I was interested to hear that she had had a baby. His pounds is certainly old-fashioned. To be really sly hit 5 pounds and not more than 6 isn't that it?

Fay Peterson is back working for a teacher's certificate. Damn this paper. Billie

people. Sorry sometimes but Jean is marooned on her hill and my 10th had Plymouth just can't take it up to her mountain fort.

Saw Connie the other day for a hectic moment as they young one is a handful. Saw Margaret Estep's baby for the first time. She is in Berkeley now but plans to return to Sacramento. I guess it was quite a feat for her to have had that baby.

A quiet Christmas here. Did you have a white one? I thought your card was lovely.
