NEW YORK

July 29/39.

Dear Kar - How glad you have
reached your destination - We can
send some word to you -

We followed your "going's" with much
interest & you were very good about
letting us know where you were -

We miss you a lot & wish you were
here for the big birthday celebration
tomorrow - Shogio has been & gone

with no recognition - Clement's & David's
are due early next week, so here

is to be one grand celebration
for all three at the McLanes' to-

orrow - Birthday cakes & all - as
David had to work today (Saturday)

I am going over to stay with the
baby while she does the marketing

for the party but I wanted to
get this ~~letter~~ to you - started

so it wont be too long before it is
in its way -

Shog. sold one of the little trees
this week - the one that goes over
to one side - the woman is crazy
about all the potted trees. They
have added some beauties to
their stock since you left -
I wish you could see them -
Oh by the way - the woman that
took the little -

Well, here it is Sunday at seven
P.M. - has interrupted yesterday at
the above point & have been going it
ever since - has going to say that
the woman who took the little side-
wise tree had seen some in Cali.
& was crazy about them & they were
the Donold trees!! Small world
isnt it?

Mr. Lad. quite a time at the M Lane
this afternoon & all wished for you.

BOX 213

NEW YORK

I think you would have enjoyed
it all too.

Too bad Mr. Wright isn't more of a
man. If his moral nature was up
to his professional genius he would
be really great. I haven't finished
his book but will soon send
it to you. His own account
surely ~~condemns~~ him tho he
seems to think he justifies him-
self.

My Law had some rain but no
heavy down pour. A hot & muggy
weather - mostly dull. Wish it would
rain hard & get it over with.

Bernie & Helen came this
afternoon & S. Logo has gone off
with them, probably to get spaghetti
dinner.

I gave David a croquet set & what
a time he had playing with it. Shogo
stuck up his nose at the game
but that was to be expected -

The terrace at the side of the house
is completed & the pretty little birch
trees are completely swamped - Don't
show at all - Shogo got what he
wanted - Has David his way fast
y'see -

Clement & Shogo are planning to show
down for the next two weeks & take
some what of a rest. Wonder how it
will work out - Will new work pour
in? May be - Will see what we shall
see -

What progress have you made in
getting at the typewriter? Probably
you are click clicking away on it
this evening - I miss the cheery sound
of your doing it here - It didn't
bother me in the least.

Bernie, Helma & Shogo have come
back - I hear them down stairs -

BOX 213

Wish it would get cooler again -
I miss the Fair but this weather
& not pleasant for tramping about
Flushing Meadows - I hear there
is a very lovely & interesting fountain
in the Digestive of Liberty - did
you see it?

Come back does if it doesn't
work out for you where you
are -

Kind wishes to you - from each
of us - yours -

Mrs. Cook
(Nannie) -

The Hastess tray is a
great joy at our parties!!

Mr. Kazuyi Domoto -
"Takeshi" -
Spring Green -
