DEAR SALLY:

Say this is just a short note but I will write more tonight. Did Jimmy Tanji visit you yet. I have his radio over here now and it does work well.

Tomorrow I'm going into N.J. to look for a house. By looking on a map, there are many very nice places much closer to N.Y. than the parts of Long Island which I was interested in.

I'll find out today how long my job is going to last etc. It has been sort of overcast weather but today looks like it will get pretty hot.

Will write more later. Got to go to work now. How is Mike & Spike now? Gosh! I wish I could see them now.

Until later Sally,

Love Kan
