Dear Kenegie:

I went last Sunday with Bob Houghton to look the places over again and found an ideal spot for your purpose. There is perhaps 10-14 acres of gentle slope above Bob's place where we were - all sandy peat deep several feet. It is all in brush which can easily be cleared.

The fellow who owns it lives in Mountain View and I am quite sure it could be bought reasonably.

If you come sometime again I will take you over and you can see for yourself.

Best regards
Frank
