

Feb. 18, 1945
Dallas Texas

Dear Ken, This may be quite a surprise to you but procrastination being the thief of time, months have gone by before I really should have written to you.

Are you pretty well settled and satisfied in your present community? Or are you like many of us disturbed and undecided what to do since the lifting of the Ban. There are conflicting opinions regarding the advisability of returning and I do not intend to rush into the matter but ultimately I think we will be returning. Brother and Yutch are practically decided upon returning this coming summer. For one thing I guess they want to avoid this damned Texas heat and I don't blame them.

But don't you think that the War cannot last very much longer and within a few months time with the War rapidly coming to an end may ease the situation for us to make a definite decision.

Fortunately we have had a mild Winter to date but out your way it must be

plenty cold with lots of snow. Are the children
having fun in the snow. My girls would love
to get into a lot of snow sometime.

We hope you are happy in your
present environment and work, and wishing
for you and your family to be in good
health.

Love
Hideo

Please write sometime - we like to hear some
news about you and your family.
