top of the tree where we put the ones we want to honor - especially

My dear Kan - + Mrs. Kan

I know you will never love us any more, for our complete and deadly silence. Each week I had planned to write - + each week goes by fuller than the one before.

But so I can at least say "Hello" and thanks for your letter + pictures, I will set myself to one page + hope to get a chance to write more. Customers are arriving every few minutes, + I may have to run. Richard went down to the station to see Stephen off to Westtown.

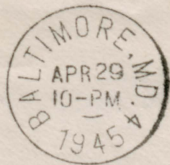

He was here over Sunday, and it is good to have him. He certainly enjoys it there & has just one word for it and everything he does - "Swell". He has been on the Honor Roll twice - a surprise as he is not such a good student in general.

Richard is at Friends School - & is very important to the J. V. La Cross Team & hopes to make Varsity next year. The following year he will probably go to Westtown.

How glad I am that you found a house in N. Y. & I do hope you have been happy there. It must keep you all busy to repair the house & work in N. Y. City also. Wish we could see you & your home and children.

There is much I want to write but think it wise to get this much off anyway. We all send our very best regards to all of you —
Katharine —

Your card was one of the nicest we had & was near the

Mr. and Mrs. Kaneji Domoto
