

May 4 - 1944

Dear Sally,

I'm sure a busy correspondent  
aint I. I've got no excuse  
for the delinquency. So I  
hang my head in shame.

Thanks for the set "Xmas  
gift"

The week of Xmas I  
and I shopped all day for  
your kids but couldn't find  
anything without being

robbed purchasing it. Things  
for children were hard to  
find that in toys were. We  
were looking for some I.Q.  
toys - got some blocks but  
never sent them out.

I intend to tho. soon as you  
relocated.

Things with me are all O.K.  
Didn't get a cold this winter.

I've been out here a year  
now and had a damn boring  
life. "When to Detroit about 5  
times during the whole year  
never dated out a Jap girl once  
and spoke to about 5 Jap girls  
during that time that includes  
see

this is not saying I didn't  
enjoy my temporary relocation. We  
live eaten restaurant food for  
nine months. Had a Chinese meal  
once. and never a Jap. meal  
under miss it tho.

although there of a lot of  
Jap. kids 2 house away I very  
seldom visit to them's a good  
percent of them are fine their  
teens ~~and~~ on issue they  
all work in a nursery they  
not mine (although there is  
another Jap issues with me now)  
so I don't visit them  
certain K. Fujii

although I haven't gone to  
church but once I feel  
like done a fairly good job  
in mixing in with the  
public. because I felt  
that most of the discrimination  
comes from the lower class  
of people. I've spent most of  
my spare time in the  
Restaurants, Bars, Pool halls etc

and a lot of people say  
hello to me, all in all  
I feel like I made this town a  
pretty good place for me to  
live in.

Because of and F.B.I. mix up  
we've been classified 4.C  
the F.B.I. is looking for a  
certain K. Fujin a secretary  
of the Military Merchants society  
(a Black Dragon affiliate) of  
San Joaquin Valley, who is  
said to be at large. Door  
a this is mistaken identity is  
cleared up I'll be I.A. I  
ain't too anxious to get in the  
army but would like to be in  
uniform before the war is over  
although I'm seriously trying to

I get into the Merchant Marines.

husbands in the Armed Forces  
It cost me about \$25 per  
week for room and board  
despite this high cost of  
living I managed to bank

700 dollars plus 225 dollars in  
savings. ~~Also~~ sending Kiz 15 dollars  
a month and putting 50 dollars  
into the company bond holds  
this amount down some.

I certainly hope your  
planning to relocate and any  
season for not relocating is  
pure shit (pardon)

For being dropped and stuff  
like that just doesn't hold  
water. They are probably millions  
still good

If Sam is drafted (which I doubt  
very much cause of his eyes) this  
way you'll never get out of Camp until  
the duration is over and maybe  
longer than that if he doesn't  
come back.

by going out now all kinds  
of Permanent Reservations can be  
made if he is drafted. you  
got ability and good background  
and a profession that hasn't  
been taped. why hell  
maybe you could even support the  
kids and have any way get  
out now while the getting's hot  
still good

going out to some spot where they  
 haven't ever seen a Jap many be  
 OK for some people but in  
 your case what the hell the use  
 doing things the hard way its  
 tough enough the way it is.

Any way I hope things are going  
 along smoothly with you and  
 that your relocation plans don't  
 remain tentative too long.
