

Dear Kar. -

It may be some time before I can manage a letter so I'm sending this card to tell you that I have been sent to Los Angeles General for an operation. It's to do over the one I had 7 years ago. I'm on the 14th floor in the surgery ward.

Thanks for those books. They were just the ones I've been looking for, especially Pearson's "Studies in Murder". So now I have Bolitho's "Murder for Profit + Roughhead's "Enjoyment of Murder", in case you come across some choice items. I meant to send you five dollars but it will have to wait until I get out of here. If this fixes me up, I may be out of here next year. expect to be here 2-3 months. Musimmi
