

53 Union Park
Boston, Mass
June 4, 1944.

Dear Han,

Received your letters and shirt. Would have written and said for you to keep the shirt but was too engrossed in my venture into becoming an ardent capitalist.

Have finished my third week of work at the Cambridge Plating Co. - Trainee as a plater - 55 hours a week. Am huddling around all day and am making up for my lean and get paid business.

Incidentally the other job didn't pan out.

Am beginning to look around for a place to live but its pretty hard I guess. Haven't seriously tried but Y and W are looking without much success.

I don't do anything nowadays but work and go to a show occasionally with Yuni.

The weather is variable - got hot 96° the other day. 70° today.

How are things with you? Especially this
house hunting business in New York. - Hope you
have luck so that Sally and the children
can come out soon.

Haven't heard from Camp in a long while
except a card saying that the Navami's
have gone to Tule. No word from them as yet.

Just a word - as usually true. Will
drop you a line some day in the future - !

W. H.
