

Friday Eve.
Waiting for the Clinic

Dear Ken: -

Well things are getting into shape after all these months of
indecision with so many factors to be considered. The first &
most important thing to me is that we've set the date for
Sept 24 at 2:00 in the afternoon & at home - that is our
"7:10" - If you can come earlier - that is maybe even Fri
night, we'd like like hell to have you come then or Sat.
morning if that is more convenient for you - It will be
good to get a chance to talk & I know that Dick would
like it too. (Better go on a pencil as I'm using pen & while
"on duty" & taking the pen out is too obvious)

I would never do this - the regular worker for this
side a pill & so high - sheery, I don't know - She seems
to be a great deal like what's been only not so bad due
to the fact that she has had some sex

More again but want to
get this to you

Yuri

Still kicking around. Yuri is fine and all too
busy, as I'm pretty lazy about getting around. Did
go get a blood test tho! How's the family
had it comp?

Am having a lot of work any day. Got a 5% per
hour raise couple weeks ago. Got of a hourly raise of
c. 4% every three months up to a dollar.

How's your work?

Setting over with my school next week, Monday.
By now it's a quid! Am digging in for the winter
before me and pay all my attention to Yuri.
Rich.
