

Wed.

Dear Kan,

Was looking thru the papers on my desk and found the unmailed letters which I wrote to you a couple of weeks ago, so I decided it would be better if I started a new one all over. Been real busy lately - Sacramento - San Jose, Gilroy, etc., so that when I get back here I'm more or less in a daze.

I still go to the fair 3 times a week - Wed - Sat & Sun. Nothing to do but to make myself conspicuous & watch the moves. They are also serving tea & ice cream and they also have a new bunch of young girls, as waitresses. Don't know who picked them out but they certainly are a terrible looking bunch.

You know Kan, I must be a terrible letter writer to not answer your letters sooner. I want to answer them as soon as possible but you know this business is pretty busy right now so I have to keep after them. But don't let my bum letter writing influence you for your letters are always welcomed. I thanked you for the N.Y. Fair guide Book in the letter which I didn't

send you - Thanks very much for sending
it on to me. They certainly do things in a
big way out there - don't they? Wish I
could see some of the exhibits out that
way. By the way if you are around the
Transportation end of the fair please
try to get some pictures of the trains
for me - especially the Penn's streamlined
locomotive - name American RR. And
other interesting RR exhibits - Thanks

How have you been out that way?
Be sure to let me know how things
are getting along. Have you made any contacts
out that way with the different firms?

Must sign off now Ken so until
next time. Cal is having their final week of
finals now so I guess it feels pretty good
to be working.

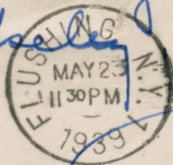

Your friend

Ridge
