Physically in grand shape today - Temp. only about 100 degrees above normal - feeling comfortably. Respiration etc. very good. She fell ill on last Mon. Had chill & temp - took to bed at noon - vomited - as I told you - better on Tues - worse on Wed. so called Dr. Yamada - He didn't think appen. 'til Thurs. Took her to hospital then. She was pretty much in pain Thurs. But days following operation been very good - Gee - sleepy & got to get note to Son yet so good - night - love from me.

P.S - She would about for Em, & then Nich - sales tax etc. Shouldn't worry but due - everything really ok. I'm helping Nich so don't you worry

Easter Sunday

Dear Ken -

Thank you for everything on my birthday - Gosh it was a gala hold & a very cute card.

I have other things to tell you but haven't the time now except to say that last Thursday Wak had an appendicitis operation at the Tealata Hospital. She's doing just swell so Ken don't worry. I haven't told you before because she made no promise not to until she had given mother OK. So it is, she hasn't as yet but as I told Nick I just felt awful about not letting you, Tok & Son know & he said that he tho't it would be OK. to go ahead & write anyhow. But don't please write her anything now she is because I'm not suppose to have let you know yet - I'll write again as soon as I can to give you more details.

We haven't told anyone except oji san & he (pa felt he should tell him) damn him! told Senda - san even if we told him not to tell anyone. We don't want wak to be bothered with all these visitors with a kind heart - but you know it's too tiring for her to have them. And she's too good-hearted ~~not~~ to say "Go away!"

And Ken I got so mad at oji san! I've told him not to go until we let him know but he goes anyhow this morning & I never spoke to him like that before but he shouldn't think so much of "how his heart longed to go see her" as how

she would feel. He of course says that she expressed
happiness in seeing him. What else could she do!
It gets me so doggone mad because she told me
not to tell anyone!

But she's resting just swell now - Dr Yamada
& another doctor both say she's doing better than the
average app patient so have no fears - she'll
be back home in the short while & in the meantime
I'll do my best - so far (with fingers crossed)
there's been ~~no~~ messags so good-bye.

Yuri

Will write more when I get the time - perhaps
in a day or two.
