

7-12-42

Dear Kam,

guess its about time I wrote you to see how you are getting along. You must be very busy teaching and what not, still you should be glad you have a soft job instead of sweating outside digging ditches and what nots.

As for us we are still here, I dont think very much larger and we dont know where as yet. How about you? when do you think you will be on your way again. I heard that Pinedale (near Fresno) is nearly empty now, most of them went to either Lake Lake or Arizona.

Not much news around here. I'm still busy with my refrigeration & will be till the last day. Iately have been taking on only commercial

repairs but that alone keeps
me plenty busy.

By the way, if you should
want anything let me know now
because if I go to camp I won't be
able to buy anything. Reedley isn't
much of a town but we can try.

That's about all the news there
is to write about at present.
So will sign off. Best regards
to everyone.

Your friend
Rudger
