

Sept. 18, 1944

Dear Sam,

My apologies again for being so late in replying to your letter. You must know that by this time it's kind of a habit with me - well you know just plain lazy.

I'm glad to hear that you are in the Drafting & design line, after all I guess that's what you've been wanting to do all along. That question of yours about how to go about getting a raise, well I don't think I could offer any advice on that point. But I guess by the time this letter reaches you, you will have gotten the raise any how. After all you can't keep a good man down. I wish that I could be in a position where I could contemplate getting a raise sometime too.

By the way, when you have time how about giving me the low down how things are around there. The only way I can keep up with things on the outside is from the persons I correspond with now. How are the Japanese-Americans getting along in New York? There must be quite a batch of them out there now. Let me know what goes on will you.

Nothing much going on here now, now that the base ball season has ended I guess they will start playing football & basketball soon. With an old man like me those days of participating in strenuous athletics has passed. Remember the days when we used to play for the Wildcats; those were the good old days. Maybe one of these days we can get together and talk about the good old days again. I don't know how I got off the line to start talking about the Wildcats.

Looks like we're going to have an
early winter this year. By the roof
tops are ~~so~~ white with frost in the
mornings and is that north wind
cold. It looks as though we're going
to have snow soon around here. How's
the weather out there now?
