Dear Sally:

I got your letter a long time ago & it just seems like I don't get to writing very often to anyone. Beginning today we have a girl in every morning so I guess maybe the joint can get itself organized a little I don't know. There isn't much going on except that I'm putting on weight & sticking out & the Alexander tho' 14 months isn't walking yet but he sure has fun crawling around. I hope that Ricky is feeling more human -- by if Alexander got so wild I don't know what I'd do with him esp. since there isn't a family down on the 1st floor that will look after him. I guess he gets along alright with Kathy or they fight all the time, but he's probably better than nobody for her.

We sure would like some modern furniture only we got no place to put it at this point. Honestly these peculiar So. Calif houses built about 25 years ago are really a mess

Abe is still working at the secrets for the Air force
at Land Corp. but he hasn't gotten his clearance
yet so he has to stay away from classified
stuff. It is sure taking them a long time to
get him his clearance - must be a subversive
character. As for you & Kahn getting dough of
Usonia seems to me like your probably going
to find yourselves having to settle for property out in
their project. I ~~had~~ was telling the boy you sure
could get even with them guys by taking a
piece of land as settlement & building a Cape
Cott municipality in their midst. All with
again when I don't feel so deeply
have to all
Mary
