

Dear Sally:

I have been trying to think and it has been horribly fatiguing, christ
am I tired. After all afternoon, I have managed to work out a two page
outline of basic assumptions on ~~xxxxxxx~~ which to base an outline
analytically a study of parties. It is too much for me and I am sure
discouraged.

The democratic party has been having a Jefferson Jubilee in town with
all sorts of hot shots in town including Cissie Moffett's mother.
Mac came in town with her silly husband x who had to attend to
some ass kissing, so she and I went to see Cissie's mother. We
stood around for one hour in the Steven's hotel which overlooks the
lake the view was gorgeous. But as we sat in there a bunch of
the party hacks came in and we watched as they talked. We finally
got to talk with the old lady for about a half a minute.
And that was that.

The cabinet was in town and we didn't go because we figured the
crowd would be too big but they had it in the opera house and
only a third of the place was filled.

Well it was great going and Truman won the hearts of all. He
really knows how to speak and is probably a good politician, Staßen
not withstanding.

Then Mac and her husband on friday night decided they wanted to go
to Calumet City where things are really rare and I do mean rare. It
is a small town outside of Hammond, Ind., and is completely full of
striptease places, gambling joints, etc. So we drive 35 miles to
see some old hags take everythin off but their G strings and bump
around. It got a little boring after a while. Some of the stuff
is sheer degradation and really quite vulgar. One women had a
dummy and made like she was having intercourse and had to go into
about 75 different positions. Then there was the guy who kept
talking about a T W A tea apparently a twat is ax slang for vagina.
So it was really very dirty. We drank beer for 60 cents a bottle
and then came home. There was no gambling that we could find, the
cops have cleaned the gambling but not the women. What a place and
there is one place that says there is a women every 5 minutes stripp
ing and by God they wer n't kidding. There must be about 100
girls working out there.

Such an adventure. It was nauseating and I must admit it got me
after a while

Got a letter from Mary today in which she enclosed pictures of little
Alley oop, the new baby that is. He is really quite cute but he
sure has a lot of hair.

Called up the family on mother's day. Everybody seems to be feeling
tres ges out that way.

Well things seem to go badly for you on the other hand you all seem
to be doing all right with all of those house orders. I think that
is wornderful. I hope the kids are in good health

Thanks for offering to make me a skirt, but don't bother because I
think that if youre going to sew you might as well sew for the
kids. And if you aren't sewing you should be taking it easy. So thanks
anyway. And anyway I don't know what my waste measurement is. The
last few days I have had so much gass from eating lima beans that I
don't think I have come back to normal.

Kair was so funny when I called home. He answers and says oh hello
susie, what's the matter, you need money or something? Mama chattered
about how well she was and I told her the price of carnations out
here which was 5.50 a dozen, then she told me that papa had gone to
S.F to see some nips off to Japan. Kezie sounded well as did Hana,
I didn't get to talk with papa. But I suspect he is feeling fine.

I might go east for in between quarters. I don't know yet, but I didn't get to talk with the women's division research director of the democratic party and I would like to get a chance to talk with her sometime. So maybe I shall go to Washington for a few days and then back to NY. I don't know yet however. It might get so hot that I will be discouraged from doing anything.

Well I shall close, take it easy.

Mary is coming out on the 19th of June or thereabouts.

love susie

Susie

Read this first

Mama + Regie asked me if I was coming home this summer. I really don't know yet although I do have to take a course this summer quarter. So I guess I can't.

I shall send the photographs back to you as soon as I remember to buy string!
What a life.

Now that its hot weather why dont you

drink these cool drinks made of

juice from 1 lime

some sugar - sweeten to taste,

Gilbey's gin - 1 jigger

then add ice ^{cubes} and sparkling water (soda plain)

fill glass to top with the sparkling water, throw in maraschino cherry and sep! - For each drink

the above recipe applies. We gave this to Ken + he liked it last summer - very refreshing!

LIME RICKY

This drink for the summer time

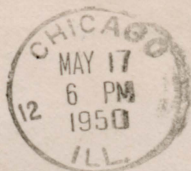

You make with the juice of a lime.

Add sugar and soda
And of course a quota
Of gin makes it worth
your time!

Albert made this up especially for you when I asked him for the recipe.

(see above)
