

Jan. 15, 1930

Hello Ken:

I could see you slamming the little door, and cursing at me saying, "damn that Wak, I wish she wouldn't write so often!" well, I don't expect any answers anyway. This is my pastime now so and you're the goat. I'll peek on some one else again soon.

Talking about weeping on "Geraldine's shoulder's", I think mine is just as large as Kai's - if not the same. But now a day I always wear my sweater, and yesterday I got some gasoline on it ~~and~~ and I don't think salt water and gasoline mix, do they? Yet again, they may make my motor go so if you like that come ahead in full force.

We're sending your laundry bag this apt and with different oddities & commodities. If they should be anything around here it's too good for chickens and that which we don't know what to do,

we send them to you — do whatever you like with such articles. If your waste-basket isn't large enough, I'll send you another larger one. At last one more mystery is solved. — the questionable glass. Who brought it there? Why you? Now we catch 'em.

Everything O.K. around here. As I'm writing this, Tok is playing piano. If that is a change, here's news.

Oh yes, that Algebra B. you get full credit for it don't you? 3 hrs. a week. If you do, why weep? If you get an A out of it, it means 6 grade points. Not bad. It'll be an easy way to get bowl-out average. — ~~next year?~~

You always knew what a nit-wit you was, don't you? Well this caps all of her previous records. She evidently believed in "hot-n-cold" shop. Only trouble was she reversed. I had to go in back with her the other night and she unconsciously put in lot of cold water. You see, she was busy talking to me, — feeding me with hot apple sauce. When we just about froze, she found out & put in the hot — and talk about — Boy we had some out red

as boiled lobster - better still like devils.

I wasn't going to give you another sheet  
but Son just told me about the "Oriental  
crash." you know - Chenamen & you. He  
send the bill. No you're wrong, it isn't  
much. Son said, "you should have hit  
him harder." Only \$4.20 for new fenders, bumpers,  
coat of paint & caps. That's Ford for you.  
I think Ford knows how it is for college  
"kids" anyway. Isn't he popular on  
campus.

Well. W. K. D. signs off now.

No more.

W.K.D.
