Towson 4, Maryland

Dear Sir:

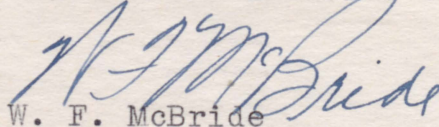

I have your letter of February 6 in answer to our ad in the Sun newspaper for Senior Engineering Draftsman.

Your salary requirements are satisfactory provided your experience in mechanical drafting is adequate for our needs. I suggest that you bring some samples of your work at any time convenient next week and go over the matter with Mr. Herd Eburg, our Chief Draftsman.

The town of Pikesville is approximately eight miles west of Towson and if you have a car, it is only a few minutes' drive over here. So far as I know, there is no direct connection by bus or street car.

Very truly yours,

MARYLAND ENGINEERING COMPANY

W. F. McBride

Dear Mr. Barnato -

I returned today from a weeks road trip and found on my desk your letter of February 15 in reply to mine of the 11th.

I understood that you are primarily an "architectural" man - You made this plain in your first letter.

It is also true that our work involves mostly mechanical drafting. So the questions to be answered are two:

(a) Do you have enough mechanical knowledge to do it under immediate supervision at the outset - So that you could be of some assistance to us immediately

(b) Do you have the faculty of "catching on" to mechanical drafting. If so we can probably use you.

If you are at all interested in the job I suggest that you bring along some of your work and lets sit down and talk it over. It will do no harm - and it may help us both sincerely.

Dear Mr. Bennett.

I returned today from a
week's vacation and found in my desk
your letter of January 15 in reply to mine
of the 11th. I was surprised that you are
pursuing an "architectural" course. You
make this plain in your first letter.
It is also true that our work
requires mastering mechanical drafting.
The question to be answered are two:
(a) Do you have enough mechanical knowl-

use upon. If you are at all interested in the
I suggest that you keep along your
work and let it be a matter of course. It
will be no harm - and it may help in this connection.
