

Dear Brother;

I am feeling pretty good but I got a sore neck and I have to keep my head up straight. Maybe you felt funny when I told you not to spend so much money on me but what I mean is that don't spend more money on me than every body in the family. You do not have to write the answer because I know

you are very busy  
and I got lots of  
time to write to you.  
How are you getting  
along with the typewriter. I bet you  
can go pretty fast  
now. We had a  
pretty good Thanksgiving  
dinner did you. I hope you did.  
When does your  
Christmas Vacation  
begin. Ours is the  
nineteenth but  
the teachers institute  
is a week before  
and that makes it  
the 12th of December

We have not had  
a bad weather for  
about a week. Now  
is the weather down  
there. I had a spruce  
tree branch about  
4 ft long and about  
1½ in in diameter  
and I took the  
axe and shape it  
into a bow. I used  
the spokeshaver  
to smooth it out.  
I asked George if  
it was alright  
and he said it was  
know good so I  
braked it up. George  
said he would

make one out of  
bamboo for me.  
I forgot to ask you  
how to connect  
the electric train.  
I got it connect  
the way durkey showed  
me but to make  
sure will you send  
the connection please  
Durkey said that  
nothing was the  
matter with the  
transformer

Yours lovingly  
Kanaji D.

P.S. Do you know where I  
could get Wood Alcohol
