

April 13, 1924
Monday

Dear Brother;

How are you. I am feel good. I mean very good. Every body is feeling fine too because it is a very good weather. Before I go any further I excuse me for not writing straight line.

It sold out Easter time. Pa said, "I have been growing Easter Lily a long time but ~~he~~ never sold pot plants that had no bloomed flower but had bud. This time I sold pot plants without flowers and all the cut flowers!"

Pa had to cut some pot plant to make cut flower too because there were none in the market

(over)

He sold them pretty high
but nobody ~~complain~~
complaint because they were
selling them just as good
as I we did. I think Mr.
Iving earned quite a bit.
He buys fifty cent plants
from us and sell them
around seventy five cents.
Pa thought he would only
sell around $\frac{2}{3}$ of his stock
around Tues. Wed and Thur.
but he change his mind
when Fri + Sat. came because
from every where came
orders for Lily because
they found themselves
short of Lily.

Last three or four weeks
some people around
here got robbed among
them were Nishiyama

of It gay, and Minami. 2

Minami's house burned
just a week before the
robbery. Its roof just
burned so it was not so
serious as our cousin.

I joined the Boy Scouts
of America and am going
to pass the tender foot
test. I shouldn't of said
that I was going to pass
the test but was try
to pass it. I'll tell you
when I pass it don't
worry and that's going to
be pretty quick. ~~Her~~ ~~body~~

Mamma has about
forty baby chick now.
She said that she was
not going to have any
this year but she got
the fever again.

I got a secret from a book
I got from the
been

(over)

Our scout meeting
night is on Thursday
night. You must think
that I was kind of hazy
because I wrote about
the scouts and to Mamma
baby chick but I forgot
and to tell the meeting
night and I thought
you might want to
know and That idea
came to me when I was
writing about Mas chicken.
The meeting is held at
our school

Yours lovingly

 H. Kaneji D.

P.S. If you can't read my
writing send the letter back
and I'll type write it. Maybe
this is the first time I wrote so
long on a fountain pen that's why
you see lots of blots
