

Tuesday

Dear Jan: I got the package of clothing sent off yesterday aft. - Cost me \$1.10! Hope everything is in it.

Both kids decided at 11:30 last night to get up + have fun - they refused to go to sleep until 2:00 - Boy - am I worn out now - the same thing happened the night before only it was K IV + Miki slept through it - What a time.

I'm sending some pictures I've took - the doc in some of them will be unfamiliar to you - my family sent it to Miki for her birthday - the soldier hat on K IV was pulled off of it during one of Miki's energetic + destructive moments.

When I went down to mail the package yesterday - Wah apparently gave Miki "quite a slap" (Wah said so) for doing something or other - Miki retaliated last night by grabbing hold of Wah's finger and

digging her teeth into it angrily back -
she looked so determined when she was doing it
I had to try hard to keep from laughing.

Unc said nothing after reading your letter

Mitsi Nakamura left for Crystal City (Texas)
yesterday noon.

Roy ~~and~~, Mary + Sheldon are leaving on the
2nd but I don't know where they're going.

Is it alright if I go to Denver - presumably
my expenses will be paid by the W.R.A. -
no children go without some member of the
family anymore - that's as a result of Mili's
last trip. Mr. Moore left strict orders to that
effect. Yuri may put a wrench in the affair
though 'cause she wants to go again & she
can simply say she has work on cases to do also
she can take care of Mili which would leave

me out. If he does that I will never
forgive her.

I must close this - your frequent
letters are a godsend to me - there isn't
anything I look forward to more than them.

Take care of yourself & find something
that'll be good for you for the duration if
it'll keep you from being drafted. - you
know that I'm not too particular about
the area - simply because I don't know
that ~~the~~ region at all. - Please do what
you think will be okay.

Lots of love -
Sally
